VICTORIA, B. C., SATURDAY, JULY 8, 1911

No. 6

ROYAL VISIT TO IRISH CAPITAL

KING AND QUEEN
CORDIALLY WELCOMED

Their Majesties Will Remain in
Dublin Until Wednesday—
State Functions

Dublin, July 8.—King George and Queen Mary received a quiet but cordial welcome to-day.

The attitude of the people is expressed by a banner stretched outside the city hall at Pembroke, a suburb of the capital, which refused to present an official address to the King, reading: "Welcome. We Want Home Rule."

The Lord Mayor of Dublin, whose threat that he would present an address to His Majesty despite the contrary decision of the corporation, it was feared, would lead to trouble, remained at home.

The royal yacht Victoria and Albert, anchored in Kingstown harbor last evening. Every available point along the breakwater and on the landing stages was crowded with cheering Dubliners, who on seeing the King and the Prince of Wales on the bridge of the yacht, burst forth singing the National Anthem. The first division of the home fleet, anchored outside the harbor, firing salutes.

The royal party, which includes the Prince of Wales and Princess Mary, will remain in Dublin during their stay. Several brilliant state functions are to take place in the royal residence in the next few days, including dinners, a levee, a court reception and a chapter of the Order of St. Patrick.

On Sunday Their Majesties will attend services at St. Patrick's cathedral, and on Monday the King will inspect the Royal Irish Constabulary in Phoenix park, where he also will hold a review of troops and present some of the regiments with new colors.

The royal party will leave for Wales on Wednesday.

DESPONDENT WOMAN'S SUICIDE

Killer Son Good-Bye and Then Shoots
Herself

Bellingham, Wash., July 8.—"Kiss me good-bye, son, this is the last," said Mrs. Maud Johansen to-day, calling her nine-year-old son to her, and she immediately administered two ounces of carbolic acid, dying within a few minutes. The dead woman left a note for her husband, who is in Alaska, asking her forgiveness for her act.

She was 32 years of age and was despondent since her husband left for the north two months ago.

MAY END STRIKE

London, July 8.—While there has been a gradual improvement in the outlook for a cessation of the shipping strike, there were no fresh developments to-day except a provisional agreement, subject to the approval of the strikers, between the dockers and the employers of the Manchester Ship Canal.

The conference which has been in session for several days at Manchester between the board of trade and representatives of the strikers has not resulted in an agreement.

ALLEGED CONSPIRACY

Washington, D. C., July 8.—Charges that a conspiracy exists between United States post office inspectors and the W. J. Burns Detective Agency, the conspiracy being accomplished in connection with their business, was made yesterday in a petition filed by the Perkins Detective Agency, of Philadelphia, Pittsburgh and Indianapolis, with the select committee appointed by the senate to investigate the "third degree" methods of the police.

FIRE ON STEAMER

New York, July 8.—Fire was discovered early to-day in the hold of the Mallory steamship liner Concho, lying at her pier on the Hudson river front. The fire was under control after an hour's work. It was confined to the hold in the after part of the vessel in which it started. No estimate of damage is possible, it was said, until an examination could be made.

LIFE IMPRISONMENT

Topeka, Kas., July 8.—Frank Schenk and Mrs. Mollie Stewart, convicted of the murder of Mrs. Jane Schenk, will have to serve life sentences. The decision was handed down by the Supreme court yesterday. The case was one of the most sensational ever tried in Kansas. The husband was found stabbed to death in his home in Centropolis, Kas., February 4, 1907. The husband and father and Mrs. Stewart were convicted of first degree murder, July 12, 1908.

QUAKES CAUSE PANIC

Budapest, July 8.—Two earth shocks were felt to-day in the town of Kocs, about thirty miles distant from this city. A panic followed, the inhabitants rushing into the streets and assembling in the squares. Hundreds of chimneys were overturned and the town hall and other buildings more or less damaged.

BEAUTIFYING OF VICTORIA IS TOPIC

COMMISSION IS TALKED
BUT LEADS TO LITTLE

Committee Appointed to Look
Into the Matter and Report
Back to Council

The transparent equanimity of the city council of Victoria was seriously threatened for a moment last night during the discussion on the suggestion should be appointed to look after the beautification of the city, and other important branches of civic improvement which the board of aldermen could not be expected to deal with in view of the stress of routine work demanding all their attention.

Ald. H. M. Fullerton apparently thought the idea was a good one and was waxing enthusiastic over it when Alderman Hunter caustically interrupted him with an irrelevant remark. Instead of pursuing the even tenor of his way the alderman permitted himself to be sidetracked into a personal but failed to ruffle the equanimity of his opponent, who only smiled good-humoredly and kept on applying the pepper. Finally H. M. left his seat at the board, and with determined gait and clustering brows made to leave the chamber, with a hearty invitation to his colleague. The roar of laughter which greeted this well-intentioned movement brought the big alderman to a realization of the absurdity of the position, and he returned to his seat with his wrath evaporating rapidly.

Mayor Morley brought the council to order with a few introductory remarks and his proposal, he claimed, that for the want of such a commission in the past the city had been greatly handicapped, and that with its assistance in the future great things might be accomplished. His argument was embellished by reference to the widening proposition of the city, a proposition with which he was in the heartiest sympathy. Such works, he said, would form one of the special undertakings of the proposed commission. Once the matter had been thoroughly discussed a committee was appointed with power to select a number to carefully study the matter and bring in a report.

The communication of the Pandora avenue property-owners' asked that the street from Douglas to Quadra be widened to 100 feet by the expropriation of forty feet on the north side; the street from Douglas to Chamber street and Fernwood road be widened to 76 feet instead of 66 by expropriating the necessary land from the south side; and that in the matter of assessment the city should assist in view of the fact that its property would be greatly enhanced by the proposed improvement. The matter was read by Mr. Justice Martin, who indited the communication and further voiced the suggestion of the property-owners, that in view of the changed circumstances of the city and that thoroughfare in particular, it would be a wise policy for the council to acquire all the blocks on which the city hall stands with a view to erecting a more adequate and modern structure for civic purposes in the future.

As was generally expected, the first part of the communication met with the unanimous assent of the council. Alderman Gleason was gratified to find that the property owners were taking such an intelligent interest in public matters. In regard to the assessment it was pointed out that the city would pay its due share. It was felt that the city was not called upon to pay any more.

In regard to the proposal for the new city hall, Mayor Morley had a suggestion to make which led to an animated discussion. He stated that since his proposition for having two blocks set aside on Yates street for the erection of government buildings on the one side and civic buildings on the other had not met with the approval of the government, the city should now expropriate the balance of the block on which the city hall stands, along with the remainder of the market block. This would make it possible to extend the widening of Pandora avenue to the extreme point, a development, which, in his opinion, would make that part of the city the proper centre from which all the other lines would radiate.

Alderman Bishop endeavored to cast a damper on the whole scheme by informing the unbelieving council that many of the property owners on Pandora avenue had come to him stating that they were not in favor of the widening, that such a development was unfeeling, and also that the petitioners did not by any means represent the street. There were only twenty-three of them.

Mayor Morley at once knocked this idea by stating that the meeting of property owners had been called, and that if any objection was entertained that was where it should have been vented. After W. F. Fullerton had stated that they had a site already for the city hall on Pandora avenue, and been replied to in the negative by the mayor, when Alderman Ross wanted to know if a commission of two or three outsiders was likely to have more brains in the aggregate than a board of aldermen. The mayor scored handsily with the remark: "As chairman of the building committee you will be a member of that."

MR. BORDEN—Well, of course I've always objected to his riding in that thing, but I never tried to obstruct him; really, I never did.

COURT OFFICERS BRIBED BY PRIEST

"Guardian Angel of the Camorra" Spent Money to Obtain Leniency for Criminals

Viterbo, July 8.—The court and jury who are hearing the trial of the Camorrista, charged with the murder of Gennaro Cuocolo and his wife, were occupied to-day with an examination of papers and personal belongings seized by the authorities at the home of Cirro Vitozzi, the priest known as the "guardian angel of the Camorra" and one of the defendants in the present case.

When Enrico Alfano, and his associates were first arrested, they were released on representations of Vitozzi, who said he had learned of their innocence and the guilt of others in the confession. This intervention permitted Alfano to escape to the United States, where, however, he fell into the hands of the New York police.

The exhibit included a sword, revolvers, 140 bills of exchange, 1,000 notes from criminals asking his protection, a letter from Maria Bartilli and 100 illustrated post cards which the prosecution describes as obscene. Maria Bartilli is believed by some to be a close friend of the priest, while, according to others, Vitozzi acted as the woman's agent in loaning money.

Regarding the communications from criminals, Vitozzi said that he considered it the duty of his ministry to assist sinners, including the criminals, who had applied to him for help.

Among Vitozzi's effects were also found 100 letters from various clerics and officials of the law courts complaining that money promised them had not been received. According to officials the priest was in the habit of giving bribes to court officers in order to obtain light sentences for convicted criminals with whom he was associated. It is expected that the revelations along this line will be scandalous.

ASQUITH'S SPEECH REASSURES GERMANY

Berlin Paper Comments on the Declaration Regarding Morocco

Berlin, July 8.—The Lokal Anzeiger to-day makes what is apparently an inspired comment on Premier Asquith's declaration that a situation had arisen in Morocco through which British interests might be affected and that Great Britain in whatever part she took in the matter would have due regard for the protection of those interests and the fulfillment of her treaty obligations toward France. The paper takes a reassuring view of the British position, saying Mr. Asquith favors a policy of moderation and calm common sense and that his statement indicates that the British government will pursue a more active policy than heretofore and be guided by the interests of Great Britain, rather than by the Moroccan entente.

The Russian ambassador called at the foreign office and held a long talk with Baron Von Kiderling-Mascher, the foreign secretary. He had been directed by Emperor Nicholas to inquire in a friendly spirit concerning Germany's intention in Morocco.

PEERS LIKELY TO BACK DOWN

THERE IS NOW TALK
OF A COMPROMISE

May Pass Veto Bill if Powers
Are Not Further Curtailed at Present

London, July 8.—Talk of compromise on the constitutional question is in the air to-day. A Unionist newspaper at the eleventh hour recognizes that the King has no alternative but to create sufficient peers to carry the veto bill if the premier so recommends, and says therefore that the House of Lords will commit political suicide if it compels the government to take that course. It points to the fact that Viscount Morley in the recent debate showed a disposition to look favorably on an amendment which provides that no bill for the further limitation of the executive powers of the House of Lords shall be introduced until after another general election.

The Unionists are now inclined to regard this as an undertaking on the part of the government not to go any farther in the direction of a single chamber government as an acceptable compromise, and if Premier Asquith should decide to accept Lord Newton's amendment, it is understood that the House of Lords will adopt the veto bill.

MAGDALEN CREW WINS CHALLENGE CUP

Henley-on-the-Thames, July 8.—The Magdalen College crew, which yesterday defeated the Ottawa Rowing Club's eight, to-day won the Grand Challenge cup, beating the Jesus College, Cambridge, crew in the final by two and a quarter lengths. The time was 7 minutes and thirty seconds.

TRANSCONTINENTAL RAILWAY

Ottawa, July 8.—The Transcontinental railway commissioners are calling for tenders for the construction of railway stations on three sections of the National Transcontinental railway from Cochrane to Currie, Fraser to Grant and Superior to Dugald.

CANADIAN NORTHERN WORK

Toronto, July 8.—Sir Donald Mann states that tenders will be awarded in a few days for the construction of 500 miles of road from Sellywood Junction to Port Arthur, thus bridging the gap between the Canadian Northern in Ontario and the West.

WHARF INSPECTION

Ottawa, July 8.—The deputy minister of public works and district engineer went to Aylmer and examined the wharf which collapsed on Thursday. As a result of the inspection a system of government inspection of private owned wharves will be inaugurated.

SWITCHMAN DECAPITATED

Winnipeg, July 8.—Antonio Harvey, a switchman employed by the C. P. R., was dragged by an engine on the tracks over the Main street subway about 2:30 this morning. No one saw the accident. Harvey's headless body was found some time after the accident and was left as it lay until the coroner arrived.

SPEAK IN FAVOR OF RECIPROCITY

Hon. W. Templeman and Dr.
Clark Address Meeting
at Vancouver

Vancouver, July 8.—Pleading for the acceptance of reciprocity, which they declared would mean not only the growth of trade between country and country, but also an increase in the international development of nations, Hon. William Templeman, Dominion Minister of Inland Revenue and of Mines, and Dr. Clark, M. P. for Red Deer, Alta., told the government side of the fiscal story at a Liberal meeting in Dominion Hall last night. The federal minister quoted facts and figures to demonstrate the strength of his side of the case and his colleague, Dr. Clark, in an able and eloquent address, summed up the situation from the point of view of the free trader.

WINNIPEG STREET RAILWAY

Toronto, July 8.—Mayor Evans of Winnipeg, when asked whether the city is likely to accept the offer of Sir William Mackenzie to sell the street railway, said no agreement had been reached. The adjustment of price must be attended to first. While in England Mayor Evans floated a loan of \$500,000 for the development of the city's hydro electric power and general municipal work.

POLICE SERGEANT SENTENCED

Calgary, Alta., July 8.—Sergeant Tucker of the R. N. W. M. Police, who shot himself on the step of his sweetheart's home a short time ago, has been sentenced to a year's confinement in the mounted police headquarters at Regina on a charge of being absent without leave while in charge of a condemned prisoner.

WILL TRY TO RAISE MILLION DOLLARS

Campaign to Be Inaugurated
by Committee of Presbyterian Church

Toronto, July 8.—A million dollars for the missionary and education work of the church and minimum stipend of \$1,000 for each minister is the aim of the Presbyterian General Assembly committee on estimates and gratuity. The million dollars was the smallest amount that would enable the church to fulfill her union in 1912.

Each synod will be asked to assume its share of the one million dollars and allocate that amount among the Presbyterian ministers' within its bounds.

There are to be no separate campaigns for home or foreign missions or any department, but in each presbytery there will be one thorough campaign with a view to reaching every congregation in the interest of the complete work of the church.

FOURTEEN PERSONS PROBABLY PERISHED

Passengers from Wrecked Steamer Santa Rosa
Declare Victims Went Down When Life
Rafts Were Dashed to Pieces.

Santa Barbara, Cal., July 8.—In spite of assertions from the company officials and the ship's officers to the contrary, the passengers of the wrecked steamer Santa Rosa, who arrived here early to-day, after a thrilling battle with the breakers that smashed the stranded ship, declare that more than fourteen persons lost their lives.

One hundred and ninety-two passengers are all that have been accounted for so far, say the survivors. There were 200 on the steamer and many of the rescued declared that the missing ones went down to death when the surf battered the life-rafts to pieces.

Few of the shipwrecked voyagers have recovered from the nerve straining experience. The nerve-strain of the battle with the breakers in the dark last night was too much for many.

Arrive At Santa Barbara

Some of the rescued women are still hysterical and under the care of physicians who were called when the trains bearing the survivors arrived here this morning. Those that were able to continue the journey boarded regular trains this morning and the first was due to arrive at Los Angeles at 8:45 o'clock.

Others will take later trains, but a large number, especially of the women, will not be able to travel for a day or more.

Many of the passengers are vehement in their denunciation of the ship's officers, who, they declared, refused to land the passengers soon after the ship grounded near Point Arguello. Captain Farias, who was making his first trip as commander of the vessel, declined to listen to the pleas of the passengers, who desired to be put ashore before the gale arose yesterday evening and brought them face to face with death. He replied that he was discharged this morning and was discharged from the state of California.

The relief train bearing the rescued passengers of the wrecked steamer Santa Rosa arrived in Santa Barbara shortly after 2:30 o'clock this morning and discharged a pitiful freight of hysterical women and half-clad, shivering men. Suffering and privation were written on the faces of all and it will be weeks before they will recover from the experience. All had been drenched to the skin in coming ashore in the breakers, heavy, throbbing, and none had had anything to eat since the noon meal yesterday on board ship, except a hasty lunch and a cup of coffee provided by the sympathetic farmers that thronged the beach from their nearby homes when the vessel began to break up. Many were weak to leave the cars unassisted and a half dozen had to be carried from the train on stretchers.

Hardly one of the passengers was fully clothed. The greater part of them were wrapped in blankets. The rescued passengers, for the most part, were too wrought up to talk coherently of their near-drowning experience. A few of the cooler spirits, however, were able to give a brief word of the picture of the wreck, the long suspense on the crumbling ship as it crunched to pieces beneath them on the rocks, and terrifying passages through the boiling surf to safety.

Saved By Unknown Passenger.

That no one will be able to tell accurately for some time how many lives were lost, was the opinion voiced by three survivors, who insist that they saw one woman swept from a life raft and drowned. These men say that many more must have perished in the numerous upsets that marked the journey of the life boats to the shore.

E. K. Ross, with his wife and son of San Francisco, were among the rescued who arrived here to-day. That Mrs. Ross reached shore alive is due to the heroism of some unknown passenger, who grasped her as she was sinking for the third time after she had been swept from the life raft, and swam with her through the breakers to safety.

"I sank three times," said Mrs. Ross. "I was the life preserver which brought me to the surface each time, but I was unable to battle with the immense breakers that swept over my head. Once as I came to the top I saw my little boy as he was going. I grabbed him by the hair and just then a big, strong man caught me and helped us get ashore."

Tells of Rescue

Mr. Ross, although guarded in his criticisms of the affair, said that the passengers from the first asked to be put ashore. They even called to a passenger train passing on the cliff. The train stopped, he said, but the captain would not allow the passengers to go ashore.

"It was quiet as a still pond then," Mr. Ross went on, "and it would have been an easy matter for the crew to have put us ashore, but Captain Farias had orders by wireless from his company to keep the people aboard."

"The life-saving crew from a station near the point appeared on the scene

early in the day and offered assistance, but after keeping them by two hours, the captain told them they would not be needed. When actual debarkation from the ship did commence, however, they returned and did heroic work."

"There were probably eight lost in all and it will be some time before the exact number is known," said Q. G. Schooner of San Luis Obispo, who was traveling to Los Angeles.

Among those too seriously hurt to leave the train was Miss Jennie Weaver of San Francisco. With another woman and four children she was sent ashore to a net attached to the surf line. Waves washed over them continuously on their passage to the beach and all were completely exhausted. When they reached the shore and had been cut from the net they could not walk.

Mrs. John Barclay of National avenue, San Diego, also had to be carried from the train on its arrival here and was overcome by hysterics afterwards. She had a thrilling escape on a life raft, being washed overboard several times.

All of the passengers assert that Captain Farias made no attempt to explain why his ship was running so close inshore or to defend his course in refusing to land them when they demanded it.

According to the passengers the men at the United States naval wireless station declare the night was clear at sea. Captain Farias, it was stated, believed even after the ship went ashore that he had rounded Point Arguello and had stranded somewhere south of that promontory, instead of two miles north of it.

According to G. W. Campbell, a San Francisco policeman, who was aboard the ship, Farias did not think of putting the passengers ashore until the ship actually began breaking up.

A great gap had opened in the ship's middle, said Campbell, when he and two other men made a final demand on the captain, and arrangements were made to take passengers ashore.

Report of Bodies Recovered.

Los Angeles, Cal., July 8.—The New Orleans express, which arrived here via Santa Barbara at 8:45 o'clock this morning, brought ten of the wrecked steamer Santa Rosa's passengers. Following persons aboard the train who were with some of the survivors said that it was regarded as correct that six or eight passengers had lost their lives.

F. E. Blessington, conductor of the train, said he was told that six bodies had been recovered from the surf at Point Arguello. Several of the travelers on the train who spent the night at the hotel where the survivors were quartered, declared that when they arrived most of the men and women taken off the steamer were barefooted and scantily clad. They were furnished with proper raincoat after their arrival at Santa Barbara.

The wrecked steamer was one of the ships regularly carrying passengers between San Francisco and Southern California ports and was known both as "Cupid's ship" and "the good luck ship." It is said that fully 100 persons (Concluded on page 7.)

TEBO WILL BE EXECUTED

Ottawa, July 8.—A special meeting of the cabinet was held yesterday, Sir Richard Cartwright presiding, to consider three capital cases. The sentence of death passed upon Thomas Robertson of Calgary, will be commuted to life imprisonment. He turned King's evidence against Fredrick, who was hanged at Calgary last week. Executive clemency has been advised in the case of William Carroll, sentenced to be hanged at Sault Ste. Marie on the 25th. Carroll was at one time an inmate of an insane asylum. The council decided not to interfere with the sentence of death passed upon John Tebo, who murdered a man for his money at Digby, N. S.

LUMBER TRUST CASES

Over 150 Retail Dealers Will Be Involved in Action by U. S. Government

Denver, July 8.—Louis I. Hellman, secretary of the Colorado-Wyoming Retail Lumber Dealers' Association, was arrested yesterday on an indictment returned by the federal grand jury of Northern Illinois. Conspiracy to interfere with interstate trade is the specific charge. Hellman was held in \$5,000 bonds.

It is said that more than 150 retail lumbermen in Colorado and Wyoming will be involved in the action instituted by United States District Attorney Edward Sims, of Chicago, against the so-called lumber trust, alleged to be composed of retail dealers throughout the United States.

GORED TO DEATH

Dover, N. H., July 8.—Gored by a mad-dened bull, owned by Daniel Gough, Horace Luce, a farm hand, is dead at a local hospital. Mr. Gough himself had an encounter with the animal on Thursday and was slightly injured. Luce had led the bull down to a brook on the farm for a drink, when the animal turned upon him, knocked him down and sank its horns into his body again and again. Luce managed to crawl through a nearby fence, where he was found by other farm hands. He died a short time after he was taken to a hospital.

**MAY EXTEND
OPERATIONS IN NORTH****GRANBY ENGINEER ON****TOUR OF INSPECTION**

Additional Properties May Be
 Purchased by Big
 Corporation

Vancouver, July 8.—The recent ac-
 quisition of the Hidden Creek mine,
 Observatory Inlet, Portland Canal dis-
 trict, by the Granby Consolidated Min-
 ing & Smelting Co., of Grand Forks,
 B. C., is its first move towards acquir-
 ing large mining interests in northern
 British Columbia and Alaska. W. Y.
 Williams, M.E., formerly superintendent
 out of the Granby mines at Phoenix,
 and now consulting engineer, will de-
 vote the entire summer to a tour of the
 various lode mining camps in order to
 seek for meritorious copper, gold or
 lead propositions. The Granby com-
 pany is a \$15,000,000 corporation with
 ample resources for purchasing any-
 thing recommended by its well-known
 expert.

Mr. Williams has also been instructed
 to report on the prospective custom ore
 tonnage in view of the company's in-
 tention to erect a smelter in the vicinity
 of the Hidden Creek mine at Goose
 Bay.

Accompanying him north was a party
 of Granby officials, including F. M.
 Sylvester, acting general manager;
 Geo. W. Wooster, treasurer; O. B.
 Smith, Jr., superintendent of the
 Granby mines, and his assistant, Geo.
 L. McNeill, as well as a party of sur-
 veyors.

It is estimated that the ore in sight
 aggregates over 2,000,000 tons. With its
 usual prudence the management will
 not erect a smelter until the mine has
 been further proved up and a report se-
 cured as to the tonnage available from
 other sources as well as the probability
 of acquiring other mining properties
 by purchase.

The Granby company expects to re-
 ceive guarantees of tonnage for its
 smelter from companies in northern
 British Columbia and Alaska.

On his tour Mr. Williams will visit
 the leading properties. It is understood
 that the Granby is prepared to treat
 silver-lead as well as copper ores, each
 variety requiring different kinds of fur-
 naces. The interest taken in the de-
 velopment now in progress in the north
 is evidenced by the recent action of the
 Canadian Consolidated Company in dis-
 patching W. M. Turnbull, one of its ex-
 perts, to Hazelton, in order to make
 contracts for treating silver-lead ores
 at its smelter at Trail, near Roseland.

Mr. Williams stated here that he
 hoped to secure one or two desirable
 propositions apart from satisfying him-
 self as to the custom ore available for
 a smelter. He will visit Portland
 Canal district before proceeding to
 Alaska. He will also look over the Red
 Cliff and Portland Canal mines, neither
 of which, however, are for sale. His
 duties there will include the examina-
 tion of a number of prospects which
 have been submitted to the Granby
 company by their respective owners.

**DECLARES COURT
HAS JURISDICTION**

Los Angeles Judge Rejects Plea
 Entered on Behalf of John
 J. McNamara

Los Angeles, Cal., July 8.—A prelimi-
 nary victory was won yesterday by
 the prosecution in the case of John J.
 McNamara, secretary-treasurer of the
 International Association of Bridge and
 Structural Iron Workers. Judge Wal-
 ter B. Dwyer sustained the objection to
 the plea for no jurisdiction introduced
 in behalf of the alleged dynamite con-
 spirator, to his attorneys.

In handing down his ruling Judge
 Dwyer said that the Los Angeles
 courts have jurisdiction over the pend-
 ing trial of McNamara "on fifteen
 charges of murder." The judge declared
 that the contention of the defense that
 when a man was extradited upon one
 charge—that of dynamiting in this case
 —he could not be tried upon another
 had no application so far as extradition
 from one state to another was con-
 cerned.

As to the allegation that extradition
 had been accomplished by irregularity,
 that of what the defense termed
 "fraud," Judge Dwyer said the court
 was not to decide anything because of
 sentiment or emotion, but upon ques-
 tions of law, and that it was not his
 province to enter into the question of
 how a prisoner was brought into the
 jurisdiction of his court, but to try him
 after he had arrived there. The al-
 leged fraud, the court stated, had no
 effect upon the principle involved.

It was agreed that the same ruling
 should apply in all of the pleas of no
 jurisdiction entered in the other murder
 charges against McNamara, and in the
 accusation of dynamiting the Llewellyn
 Iron Works "as well. The case comes
 up again to-day.

PROBABLY DROWNED.

Kamloops, July 7.—It is now believed
 Harry Poulter, of Mosquito Flat,
 who was the census enumerator for the
 west side of the North Thompson, has
 lost his life. The raft on which he left
 Fenell's on June 17 was recently
 found in the Arrow Lakes boom on the
 North River. Of course it is possible
 that he may still be doing his official
 work without knowledge of any fears
 of his friends. A raft also came up
 the boom on the same day on which it
 is believed three men were travelling
 down the river. An Indian brought
 word that all three had been swept off
 the raft while running the Hellies
 rapids.

**THINKING THEMES
BY DR. FRANK CRANE.**

There is no labor problem, no social
 problem, no moral problem, no govern-
 mental problem. These are not things
 that can be worked out with state and
 power. They are
 conditions out of
 which we can only
 grow.

The only way to
 accomplish any-
 thing well is to
 grow it. We talk
 as if somehow
 man were outside
 of and superior to
 his destiny and so
 can mould it. But
 man is inside of
 all his problems.
 He is a figure,
 and figures can-
 not add them-
 selves.

Now, all this does not end in laissez-
 faire. It does not mean eat, drink and
 be merry—and let the world take care
 of itself. That conclusion we only
 come to by a sort of shift and devil's-
 dodge, prompted by the perverseness
 of a logic that is merely the intellect-
 ual fumes of laziness. To those who
 say, "A great Power, not of ourselves,
 is moving in the sum of things, hence
 to our lusts," we may answer, as Mor-
 deck to Esther, "If thou altogether
 holdest thy peace, doubtless deliver-
 ance shall arise to the Jews from an-
 other place, but thou and thy father's
 house shall be destroyed."

There is the point. Vast, super-
 human, subterranean, unknown cur-
 rents are sweeping humanity onward,
 solving all problems; but those cur-
 rents are also in us; and if we are
 used by them and co-operate, we are
 ground to pieces.

As the old Calvinistic doctrine of the
 Sovereignty of God and His Immutability
 will make the most forceful and active
 Christians; so a sense of the cosmic
 purpose in the universe, of a force of
 evolution advancing and unfolding all
 human affairs; nerves the arm to do,
 the brain to plan, and the heart to hope
 and help.

**PRESIDENT TAFT ON
ARBITRATION TREATY**

No Doubt as to Agreement—
 Four Nations Have Signed
 Sealing Treaty

Atlantic City, N. J., July 8.—In a
 speech to the International Christian
 Endeavor convention here last night,
 President Taft declared that negotia-
 tions for the arbitration treaty between
 Great Britain and the United States
 have reached a point where there is no
 doubt as to the signing of the agree-
 ment.

The president expressed the hope that
 eventually six European countries may
 make similar treaties. Such action, he
 said, will not abolish war, but would
 furnish a forcible instrument in pre-
 venting war.

The first part of the president's
 speech was devoted to a brief review of
 the work of the Christian Endeavor So-
 ciety.

From praise of the society, the presi-
 dent turned to peace and arbitration,
 which he said could be expedited by the
 influence of such an organization. He
 said in part: "In the last 25 years we
 have made great progress towards an
 international condition in which war is
 less likely than heretofore. It is true
 that in that time we have had several
 great wars. The war between China
 and Japan, the war between Russia and
 Japan, the war between the United
 States and Spain, the war between
 England and the Boers, and perhaps
 some others.

"Nevertheless, as between the great
 countries in Europe, which armed
 themselves to the teeth after the Ger-
 man and French war of 1870, peace has
 been maintained, and under the inspi-
 ration of a common desire for peace,
 treaties have been made with reference
 to arbitration and for the establish-
 ment of a court at The Hague for the
 settlement of international disputes.

"Just to-day four great powers, Eng-
 land, Russia, Japan and the United
 States, signed a four seals treaty, by
 which we agreed, in effect, to banish
 the shooting of seals at sea in order to
 preserve the valuable herds on the
 land, and to allow them to propagate in
 such a way as to maintain the fur
 seals industry, and secure for human-
 ity the valuable furs that such seals
 furnish. It is the beginning, I hope, of
 the adoption of useful game laws for
 the ocean, which has been subject to
 wanton and irresponsible use of men
 of every nation. It is the settlement by
 treaty of a controversy that has trou-
 bled these four nations for generations,
 and it ought to be the cause of great
 congratulation."

SEWERAGE SYSTEM.

Prince Rupert, July 7.—Sewers
 formed the subject of discussion at a
 recent meeting of the city council
 when City Engineer Davis brought for
 consideration the plans and recom-
 mendations for a system of sewers
 prepared for last year's council and
 shelved them as too costly.

Alderman Hilditch stated that while
 the cost was too great at that
 time, he believed the finances of the
 city to-day would enable this coun-
 cil to undertake the construction of a
 sewer system. About \$250,000, ac-
 cording to Alderman Hilditch, is the
 amount of expenditure calculated upon
 for sewers. The scheme placed be-
 fore last city council by the city en-
 gineer was estimated to cost \$191,290.
 This covered the most populous sec-
 tion, and provided for sewers running
 at a minimum depth of nine feet six
 inches from the street level. Alder-
 man Hilditch stated that he pro-
 posed to construct a system which
 would ensure drainage for all cellars
 not exceeding eight feet below street
 level.

It was moved by Alderman Hilditch
 and seconded by Alderman Kerr that

FLY WITH PASSENGERS.

Berlin, July 8.—Four aviators, Bruno
 Buechner, Vilimuller, Laitech and
 Xosle, completed the most difficult
 stage of the German circuit flight yes-
 terday by crossing the Harz mountains
 from Nordhausen to Halberstadt, a dis-
 tance of about 60 miles. The first three
 carried passengers.

The highest point of the mountain
 system passed is 4,800 feet, but the vic-
 tory was a minor peril, the greatest
 danger being from the irregular winds
 around the isolated mountains.
 Wm. Stewart, men's and ladies'
 tailor, over Terry's Drug Store, Doug-
 las Street.

start, and damaged their machines.
 With only the Halberstadt to Berlin leg
 to be accomplished, Vilimuller leads
 with 900 miles covered. Buechner has
 made 603 miles. However, if Koenig
 completes the flight over the Harz he
 will be in the lead with a total of 1,013
 miles.

Consul Bradley at Montreal has advised
 the state department that American cap-
 ital invested in Canada totals \$47,131,701.
 The Panama canal diggers at the lat-
 est, expect to explode 10,000,000 pounds
 of dynamite during the next year in ex-
 cavation.

SCRIPTURES AND SALVATION.

That the Scriptures are the Word of God and contain all things necessary to salvation is a favorite theological dictum. We may presume the dogma to be true, but it is not axiomatically true. Not being axiomatically true the burden of proof is on the Word itself and the theologian who interprets it. We are not disposed to question the first assertion of the dogma provided we are permitted to limit the place of the Bible to its purpose as a form of revelation, but we hesitate to accept it as a final finished revelation containing all that is necessary to salvation. Probably it does, but we do not yet know that it does, and it must appear that everything depends upon the meaning and comprehensiveness of the term salvation. In the interpretation of this word, which is a basic word both in the Old and New Testament Scriptures, there is room for an increasingly wide and far-reaching application.

We do not here intend to enter upon a discussion of the origin and development of the science of soteriology, but those who have studied the subject are aware that it has both a general and an ecclesiastical investment. The ecclesiastical utilization of the term has been, since the fourth century, a limitation of the word to a designation of a moral and spiritual process which— it is asserted—is divinely designed to fit mortals for an immortal differentiation. "Saved" and "lost" are the terms which distinguish the result of the process of salvation; or its neglect and consequent failure. This process is described and made authoritative by the theology of the ecclesiastic. The process has been held to be gradual from its beginning in a life of faith, through spiritual evolution, to the perfect man, but, on the other hand, it has been held to be not a process but a definite and immediate act of Divine power by which a sinful man may be instantly transformed into a being fitted to companion with the just. Thus it is held and taught by the ecclesiastic that though a man lead a life of licentiousness and crime, perhaps culminating in murder—malevolently planned and cruelly executed—yet, by an act of something termed faith this vile and spiteful soul—devilish till the apprehension of the criminal and his sentence to death—may be absolved from guilt and become an heir to eternal life. This is the length to which the ecclesiastical interpretation of the term salvation and the system which has been built upon this conception compels its advocates to go in order to admit its first and essential theories. We think this interpretation is wholly ecclesiastical and not entirely Scriptural. It was first postulated because of a misinterpretation of the words "Believe on the Lord Jesus Christ and thou shalt be saved," and upon its co-relative text, "He that believeth shall be saved and he that believeth not shall be damned." By this postulation the door was left open for the introduction of the abuses which have followed in the theology of the

varying and contradictory systems. The term "saved" was put into juxtaposition with the word "damned," and each interpreted by the ecclesiastical interpretation of the other.

Fortunately we have evolved from the crustacean interpretation of the word saved as meaning an immediate moral, miraculous and mystical transformation of a man from the character of a brute and a vile travesty of innate divinity, to that of a being washed and made pure; fit to company with the angels and inhabit a city with streets of gold and perpetually engaged in singing songs of redemption. We have also eluded that conception of being damned that was once preached by Spurgeon, in which he described the torments of hell as conditioned on the rehabilitation of the soul in a body something resembling asbestos, which will burn forever and ever and not be consumed. Both these are now too prehistoric for us, though they are both of but recent ecclesiastical authority. It cost something to let them go and there were those who would rather die in this belief than desert what they thought to be "the Faith." Yet is now universally understood by theologians that the Scriptures do not warrant these interpretations of the terms.

We are in no sense attacking the essential distinction between these terms and what they may and should be understood to mean; we are not intimating that there is not a differentiation, between the saved and the damned. It is axiomatic that this must be so; the terms could have no meaning whatever if they did not thus stand in contra-distinction one to the other. But we have not yet reached a final definition of either of the words. Perhaps we do not need to know, and that is what makes it debatable whether the Scriptures contain all that is necessary to salvation. We think it is probable that they do, but this is very far from admitting that one or another interpretation of the method or process of salvation, or damnation is final.

We are not reflecting upon the authority of the Scriptures, for we believe this to be final. What we inveigh against is the inevitable tendency of dogmatic theology to assert that salvation cannot be assured except according to a dogma or an interpretation of Scripture. The history of theology and ecclesiasticism has taught us that the authoritative interpretation of the Scriptures has changed a thousand times. It is this that has given our reformations, our schisms, our dissents, our persecutions, our stakes; all following in the line of the first real and significant ecclesiastical dissent, physically terminating in the crucifixion of Jesus. The Nazarene was not a malefactor; he was not a vagrant; not a criminal. He was a protector against dogmatic theology, and for this he was killed. His followers have built up an ecclesiastical system on his heresy which in its turn—not because of it or out of it but because of human limitations—was, until recently, as dogmatic and as tyrannical as that which killed Him. The essential science of soteriology must include the science of saving the body as well as the soul. It must compel the sanitation of our conditions of life, physically as well as morally. Whatever may be the esoteric result of a so-called act of faith upon an individual—we have no quarrel with the doctrine here—it must be admitted that "the race" can never be saved until we broaden our conceptions of salvation. The whole subsidiary sciences of politics, economics and hygiene must be included in the system of salvation that is to perfect the race. Reverently it may be said that the limitation of the doc-

trines of salvation to the ultimate in the immortal for the individual is a very small part of the matter. The world is becoming wise to the fact that any theological system of salvation which does not act as a redeeming force in all the present relations of human life does not amount to much and any institution which exists to save men fit to go to heaven without making them essentially different from "unsaved" people in their common relations must lose the confidence of the masses.

We do not know if the Scriptures contain all that is necessary to salvation, but we do know that the acceptance of the common dogma on this subject it persisted in will result in the perversion of the true and Divine meaning and purpose of the Scriptures and a woful loss in the effect upon the human race.

A Montreal dispatch published in the Calgary Herald is headed, "Conservatives Never Had a Better Chance to Win an Election." When? Since 1896 or before?

"Farmers of Alberta Far From United in Favor of Reciprocity," is the three-column headline which the Winnipeg Telegram puts over a report of a Borden meeting. It is true that one recalcitrant jurymen can get a dismissal of a jury and a new trial for a prisoner, but not at the ballot box.

The Montreal Star says, "The devotion of the Democrats to Taft's reciprocity is one of the most touching things in American political history." We should say it is. It threatens to "touch" the pockets of the interest of the consumers who have to pay the price.

Two of the Ottawa papers are fighting out the question of the merit or demerit of vaccination as a preventive of smallpox. We wish the old subject of recurring disputes could be finally settled in some way. It is harder to decide than the merits or demerits of the Fort Fraser land tangle.

Remarks the Montreal Herald: Mr. Guggenheim, having been deprived of the privilege of exploiting coal lands with several million dollars' easily remarked that the United States is not using up its resources or developing its wealth fast enough. It is astonishing how patriotic the development of national wealth appears to the man who can pocket four-fifths of what he develops.

At one of Mr. Borden's meeting places in the Macleod constituency the mayor and a civic delegation met the opposition leader with reciprocity badges pinned on their coat lapels. The mayor pinned one on Mr. Borden, but it wouldn't stick. The leader removed it before going on the platform. Mr. Borden's tour looks like a joke. It is difficult for him to get himself taken seriously.

The New York Herald remarks on the fact that the one hundred and sixty-seven British war vessels reviewed at the Coronation constituted but a little more than 25 per cent. of the numerical total of the British fleet return. Yet it was of about 400,000 tons displacement; greater than the fleet of 165 ships reviewed at the Diamond Jubilee of Victoria in 1897. That is a hint of the naval development of recent years.

The morning paper refers to our indictment of the department of lands and the government as a whole as "fabrications." We defy the Colonist to disprove any single statement made in the Times as a statement of fact or to authoritatively deny the story as a whole. If the Colonist desires us to continue our damnable expose of the piratical methods of the friends of the government we shall do so. We give it another fifteen days to concoct.

The British Columbia Mining and Engineering Record says: T. L. Lewis, recent president of the United Mine Workers of America, apparently views with apprehension the future of the struggle between labor and capital. In retiring from office he declared that the organization of which he had been the head was gradually drifting into the control of the men with no sense of justice, no regard for wage contracts, and no scruples as to how to retain power.

Cotton's Weekly, the official organ of the old-line Socialists of Eastern Canada, has an editorial comment on a recent murder trial at Goderich, Ont., which we reproduce. We do this to show the sort of intellectual and moral pabulum by which Socialism, as she is spoke, is kept alive in Canada. Here is the article: "Jardine, a degenerate of Goderich, Ontario, outraged and murdered a girl at a local country fair in Western Ontario. This degenerate was tried by a jury of his peers' declared guilty of murder and a seven thousand dollar a year judge sentenced him to be hanged by the neck till he was dead. The sentence was recently carried out. No man should be hung for murder. Crimes are not individual. They are social. We are beginning to see that society is responsible for the criminals it produces, and that the judge on the bench who orders a man to be hung is himself a criminal unhung. But just as the criminal should not be punished

JULY SALE—SECOND WEEK

For the second week we have arranged for selling the higher grades of wearing apparel, for which we are noted, including: High Grade Dresses, all of our better Wraps, Exclusive Waists and High Grade Whitewear, and Men's Clothing. We have chosen the second week for the selling of these garments owing to the great rush the first week

Stephens' Ink

has for 79 years held the home market and has **FORCED** its way through every Tariff abroad.

W. C. M. SHEPHERD, MONTREAL, SOLE AGENT FOR CANADA

for his crime, so should the judge not be punished. For the judge is a much a criminal production of society as is the criminal he usurps the right to try." This sounds suspiciously like a near relation of some of the things Mr. J. H. Hawthorthwaite, M. P. P., said unrebuked in our local legislatures.

Certain enquiries as to the work of express companies in the United States indicate that some twenty millions of gallons of more or less intoxicating liquor is yearly shipped into the "dry" districts of the country, says the Montreal Herald. This may account in part for a curious situation, noted in Canada also, namely, that though the area in which it is illegal to sell liquor is steadily growing, the amount of liquor made and consumed also continues to mount up. The local option dams are not leak proof.

In the last six months, says the Montreal Herald, Mr. Taft and the Democrats have knocked the underpinning from the support-high tariffs have

hitherto derived from the high duties on farm products generally, and now the Democrats and insurgent Republicans have done the same for the wool schedule, the incidence of whose injustice has been freely exploited in all the magazines. The New England manufacturers are strong for free materials for the shoe industry, and will bear a lower scale of duties to get them. The duties on steel cannot last much longer after Carnegie's admission that they are not needed. And so it goes.

The directors of the British Columbia Fruit Growers' Association, the secretary of which is said to be a paid official of the government, passed a resolution at their meeting at Kamloops on June 3 depositing the Fruit Magazine from its place as official organ of the association. This was because editorial articles appeared in the Fruit Magazine setting forth the prospective advantages of reciprocity. In the July number the editor takes his medicine, but points out that the magazine is published in the interests of the people generally as

well as the fruit growers. It says: "Only about 25 per cent. of the readers of the magazine are fruit growers, less than 10 per cent. are members of the B. C. F. G. A., and 75 per cent. are the great consuming public." Further on it says: "It might be well for the members to consider carefully the suggestion made at the meeting above referred to that the voting power at annual conventions be limited to directors and representatives of the affiliated associations." The government is assiduously perfecting its political machine and by limiting the votes in the association to an aggregation of double-dyed Tories and a government employee is doing well. We are of the opinion that the magazine can struggle along without the endorsement of this government machine, and we congratulate the editor on the fact that his "editorial columns are not for sale."

"The local union of painters sent a subscription of \$150 to aid the strikers in Vancouver. All unions of the building trades in Victoria are also making a levy of \$1 per man, each week, to help support their comrades in the

Terminal city. Thus far only the building trades have adopted this self-imposed tax, but unless the strike is ended in the meantime aid will be sought from the local Trades and Labor Council as well. News was received this morning of a picnic held by the striking painters in Vancouver yesterday.

With very grateful thanks to the kind donors, Miss Macklin acknowledges the following contributions to the Chinese famine fund: Anonymous, \$1; J. A. L., \$2; A. Friend, Victoria, \$5. As there is still need of help in the diocese of Nanaimo in the district adjoining it, she asks any who have not yet contributed to this fund to be kind enough to spare anything they feel they can, addressing contributions either to the Times office or to Miss Caroline Macklin, 1126 Richardson street.

The following new post offices went into operation in the Victoria division on the 1st inst.: Langford station, E. & N. railway, Tom C. Davies, postmaster; service daily except Sunday. Thistle Creek, Yukon, Henry Schochmann, postmaster; service weekly from the Whitehorse during the season of navigation only. Twenty-Mile, W. J. Patterson, postmaster; service weekly, by stage from Hazelton, Willow Park, E. H. Rendell, postmaster; service twice daily, except Sunday, from Victoria; mails close at 9 a. m. and 5 p. m.

At the meeting of the Vancouver Island Development League on Thursday afternoon it was decided to obtain the co-operation of the C. P. R. in sending an island exhibit to the Vancouver fair in September. In regard to the offer of the Pacific Northwest Tourist Association to affiliate with it, the executive thought it best not to join for at least a year. A. W. McCurdy, the president, was appointed to interview Mayor Morley to see what could be done to get Miss Agnes Deans Cameron to deliver lectures in the Old Country. A strong resolution was drafted and sent to the Dominion government asking that the small contract for the island's service be given to the C. P. R. This matter arose from a letter received from the Salt-spring Island Development League.

ENGINEER'S EVIDENCE.

Marine Enquiry Hears Two Witnesses and Then Adjourns Until July 21.

Engineer Thompson, of the steamer Iroquois, gave evidence to the court of marine enquiry yesterday afternoon regarding what he knew of the sinking of the vessel on April 19 off Sidney. He repeated the evidence given by him at other hearings held in connection with the wreck.

There were no orders received from the bridge after leaving Sidney wharf, and when the engine room commenced to fill he shouted to the purser to tell the captain to head for the nearest shore. Witness wished to explain that he had failed, at the Assize court trial of Capt. Sears, to mention that there was some scrap iron ballast stowed along the sides of the ship. He had referred to the ballast in the hold, and thought his failure to recall the other ballast was an oversight.

The witness was questioned regarding his connection with the wreck of the Iroquois, and denied he had tried to save his life at the expense of passengers. The engineer remembered the purser asking if he could go ashore in the second boat. The captain had replied, "Certainly. Wait till we get it bailed out." A wave struck the boat and washed her off the wreckage. It might have been possible to reach Hartnell if the boat had rowlocks.

Capt. Sears had told witness they had better go in the boat, because if they could get to the bottom and be washed ashore quicker than if they stayed with the wreck. The captain seemed anxious to get ashore for assistance, and on reaching shore asked witness to go to North Saanich for a launch as quickly as possible. He, however, was overcome with cold. When the vessel listed he left his engine to call to the purser, and the fireman was taking breakfast, but was within easy reach of his engine.

Joe, an Indian, said he got into the second boat with the captain and was told to steer. There were five persons in the boat with four oars. It would have been impossible for the second boat to reach the first. As soon as the captain reached the shore he walked away, and as far as the witness knew did not say anything about getting back to the wreck.

The hearing was adjourned until July 24.

Building permits have been issued to the following: A. P. Archibald, dwelling on Moss street, \$1,950; G. E. Plaxton, dwelling on Dallas road, \$2,500; W. N. Mitchell, dwelling on Washington avenue, \$2,500; W. H. P. Sweeney, dwelling on Linden avenue, \$5,000.

BRIGADE CHECKS MORNING BLAZE

BASEMENT FIRE IN THE HIBBEN BLOCK

Damage Estimated at \$500—Whole Block Saved by Prompt Alarm Being Sent in

A fire which for a few minutes threatened to duplicate the big Spencer block fire of last autumn was summarily checked by the fire brigade at 4 a. m. to-day in the Hibben block, resulting only in damage at present estimated by Fire Chief Davis at \$500. As a result the store room of T. N. Hibben & Company, in the basement of the firm's Government street store, contains a stock of paper charred at the edges and damaged by fire, and a quantity of machinery, including a large quantity of paper and cardboard.

Above the location of the fire is the retail stationery store of T. N. Hibben & Co., the cutlery store of George T. Fox, and three floors of offices sublet to tenants. The fire started directly under the store occupied by Mr. Fox, in the vicinity of the ash-pit belonging to the Hibben premises. Against the ash-pit was piled a quantity of paper and cardboard.

William H. Bone, of T. N. Hibben & Company, in viewing the scene this morning said that there had been no ashes placed in the ash-pit for a long time, and that the heater which adjoined had not been fired recently. Fire Chief Davis, however, remained of the opinion that the fire originated in the vicinity, and the only other conclusion he could come to as to its origin was that a passer-by on the street above had inadvertently dropped a lighted match through one of the holes in the glass lining of the sidewalk. There are half a dozen places where the round glass discs have fallen from the iron frame, and through one of these the match may have fallen.

The brigade was called by telephone and by alarm shortly before 4 a. m., and when the apparatus arrived the firemen found the smoke belching forth from the holes in the pavement and from cracks in the window frames. The basement windows of G. T. Fox's store were broken and smoke belched forth both from there and from the sidewalk doors. Firemen at the rear made an entrance, and the draught carrying the smoke along they were able to follow in with lengths of hose and quickly had five streams playing on the seat of the fire.

Successful efforts were made to prevent the flames leaping up through the large air vent pipes used in the heating of the premises to the ground floor of the Hibben premises, where the stocks of stationery and books would have been an easy prey to the flames, and the result been a menace to the entire block as far as Bastion street.

The basement this morning is two feet in water at the rear, the rafters of the ceiling are charred and the fire shows signs of having penetrated half the length of the basement, but the stock for the basement and breadth of the basement is damaged by smoke, fire and water.

The damage in the store of G. T. Fox is due to smoke, much stock in the windows being discolored. The fire did not break through the floor into the store above, Fire Chief Davis is of the opinion that a very disastrous fire might have resulted had the flames penetrated into the retail store of T. N. Hibben & Co.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, July 8.—5 a. m.—Pressure conditions are not much changed since yesterday, the barometer is high over the Pacific states and Southern British Columbia, and low from the foothills of the Rockies to the Great Lakes. The weather on the coast is mostly fair with some showers, and a thunderstorm with rain occurred at Kamloops. In the prairie provinces rain conditions are general. Winnipeg reporting a heavy fall of 1.33 inches during the last 24 hours.

Forecasts.

CHAMPIONS SEND ONE ACROSS IN ELEVENTH

Victoria Ties Score in Eighth but Lose in Second Extra Inning

The champions won an eleven-inning game from Victoria at Spokane yesterday, 5 to 4. The Islanders tied the score in the eighth by hitting Kraft hard. Bonner then relieved him and pitched fine ball. Hasty scored the winning run on a wild pitch by Furchner. The score:

BROR FLORMAN IS IN TOWN FOR A DAY

Canada Correspondent to the Olympic Games Committee Visits Victoria

Bror Florman, of Vancouver, who is looking after the Canadian entries in the Olympic games to be held at Stockholm in 1912, and who has been instrumental in having lacrosse placed on the programme of the games, is in town for a day, having come over from the United States by the afternoon train. Mr. Florman is intensely interested in lacrosse, and, owing to his efforts, an extensive trip is in store for the two lacrosse teams which win the eastern and western championships this season. Mr. Florman, who will go with the teams on their tour next summer, proposes to have them play in London, Paris, Bordeaux, San Sebastian, Madrid, Barcelona, Rome, Hamburg, Berlin, Copenhagen, Christiansia and in Stockholm at the Olympia games on Tuesday, July 23, and Thursday, July 25. After that the Canadians will probably journey through Russia and Greece before returning home.

Mr. Florman is by no means an unworthy press agent. By forwarding cuts of the different lacrosse teams and descriptions of the games to the various European papers he is paving the way for a hearty reception when on his tour. It was he who suggested sending a lacrosse stick to the Swedish Olympic committee. The following is a copy of the acknowledgment sent by the committee:

Str.—We have to-day had the pleasure of receiving the lacrosse stick presented by you, through Mr. Bror Florman of your city, to the Swedish Olympic committee, and we herewith beg to tender you our sincerest thanks for this remarkable gift, which will be extremely appreciated by our committee. Again thanking you for the honor conferred upon us, we are, sir, your faithfully,

For Organizations Committee for Olympiska Spelen I Stockholm, 1912.
KRISTIAN HOLLSTROM, Secretary.

Mr. Florman is in receipt of one of the first copies of the Olympic games and programmes issued.

Furchner seems to be pitching in a consistent streak of hard luck. He comes awfully close to winning a game at times but never seems able to quite pull it off.

The Seattle Times accounts for Victoria's winning of a few games lately by the fact that Davis, Householder and Raymer are off.

The East Ends defeated the Strathconas in an intermediate game of baseball at the North Ward park last evening by a score of 2 to 1.

The standing of the Northwestern League teams is:

Team	W.	L.	Pct.
Vancouver	49	33	.597
Tacoma	47	35	.571
Spokane	48	34	.585
Portland	39	40	.493
Seattle	38	41	.480
Victoria	19	60	.240

The Northwestern League now holds the record for forfeited games. Including that of last Friday between Tacoma and Victoria there have been four so far this season, which is bad business. At the last meeting of the directors it was decided to stop this sort of thing, but a row stopped. It is probable that Victoria and Tacoma will play over the game forfeited both ways, but until a decision is reached it cannot be figured as a victory or defeat for either club. President Dugdale said that there was no occasion to hold a special row-chewing meeting over the squabble. The next time the clubs are on the ground a regular confab will be in order.

SIX FAST RACES AT MINORU PARK TRACK

Jack Payne Wins Mile Event, With Salali Second. Other Results

Vancouver, July 8.—A great day was experienced by sportsmen yesterday, the whole six races arousing much enthusiasm. The one in which perhaps the greatest interest was taken was the fifth event, when some of the best steeds at the track faced the barrier. In this race were Sir John, Jack Payne, Seth, Salali, Roy Junior and Rosevale. The tape ascended and a good start was made. Jack Payne took the rail, but lost the position to Sir John, who went to the front on the far stretch. This he maintained until the home bend, when Roy Junior and Salali closed, with Jack Payne gaining ground. After making the turn into the home stretch, McEwen gave Jack Payne his head and the horse steadily went into the lead, stepping out and making the lead dizzy in the last few feet of the mile. Jack Payne won by a length and a half from Salali, Roy Junior finishing third.

The results:
First race, five furlongs, selling purse \$200, for four-year-olds—Fire, 1st; Special Delivery, 2nd; Semproelle, 3rd. Time, 1:01 1-5.
Second race, five furlongs, selling purse \$200, for four-year-olds—Third Chance, 1st; Nellie Racine, 2nd; Judge Cabanis, 3rd. Time, 1:01.
Third race, five furlongs, selling purse \$250, for three-year-olds—Beda, 1st; Arionette, 2nd; Waner, 3rd. Time, 1:00 3-5.
Fourth race, six furlongs, selling purse \$250, for three-year-olds—Maxie Girl, 1st; Mossback, 2nd; Boss, 3rd. Time, 1:14 3-5.
Fifth race, one mile, selling purse \$275, for three-year-olds—Jack Payne, 1st; Salali, 2nd; Roy Junior, 3rd. Time, 1:40 2-5.
Sixth race, one mile and 70 yards, selling purse \$300, for three-year-olds—Footloose, 1st; Juan, 2nd; Matador, 3rd. Time, 1:45.

CRICKET

NAVY V. ESQUIMALT C. C.
The Navy signalled its return to port by defeating a reinforced Esquimalt XI. True, 'twas by a narrow margin, but it was well deserved. Lieut. Morrell and Commander Vivian came to the fore with useful scores, Roberson retiring the skipper by a ripping catch at the stumps. Dore with 21 and Butcher 23, not out, helped to swell the total.

Esquimalt was a curious innings. F. A. Sparks totalled 57 and J. Ball 3. The two of them together gathered 39 runs for the fifth wicket, taking the score from 29 to 59. The score:

NANAIMO UNITED.
Prosperous Year for the Provincial Football Champions.

Nanaimo, July 8.—The Nanaimo United Football Club, champions of British Columbia, champions of the Pacific Coast League, holders of the B. C. Challenge Cup, and the Royal Standard Trophy, will close the most successful season in the history of the city with a grand banquet.

The season just closed has from a financial standpoint been the most successful in the history of Nanaimo football, for after all bills had been paid the club finds itself in possession of a handsome surplus of \$1102.50. The proceeds for the season totalled \$2325.95 with an expenditure of \$1223.45, leaving the handsome surplus stated above.

Out of this surplus the sum of \$100 is held over to start the team away next season, \$50 is reserved toward the banquet and the balance of \$952.50 is to be divided among the 17 players who took part in the various B. C. League games, fifteen in all, of which Nanaimo United won 9, lost 3 and drew 3 making a record of having not been defeated away from home.

Amidst the general rejoicing over the splendid record made by last season's football eleven arose a cloud of gloom when there passed away last Saturday George Lister, an old footballer and one of the most energetic supporters of the club.

In the ranks of the Hornets when at the zenith of their career no individual player did more for the success of the team than did the late George Lister, whose death in the prime of life caused regret throughout the city, especially among those with whom he had been associated for years on the football field.

Mother—I wish you would go on an errand for me. Small Son—"My leg aches, awful." Mother—"Too bad, I wanted you to go to old Mrs. Slick's sweetshop, and—"

Small Son—"Oh, that isn't far. I can walk there easy." Mother—"Very well. Go there, and just beside it you will see a grocer's shop. Go in and get me a bar of soap."

Will ensure you a good catch and a true tale. Come in. No trouble. Just a pleasure to show goods.

Use the GILLETTE

With the Angle Stroke

Jack-knife—draw-knife—plane—scythe—lawn-mower—all edge tools cut cleanest and easiest with the angle stroke.

The angle stroke was the only thing that made the old open-blade razor possible—except as an instrument of torture.

Yet many men use the GILLETTE like a hoe and expect it to cut clean and easy. The superb quality of its cutting edge is proved by the fact that even when used in this way the GILLETTE gives a good shave.

But to get the real satisfaction which the GILLETTE is capable of giving you, you naturally must use the angle stroke. Then you will know and appreciate the genuine luxury of the clean, cool, comfortable, easy three-minute GILLETTE shave.

Buy a GILLETTE and enjoy it—if you haven't one already. If you have one now, use it right and enjoy it to the full.

Standard Sets \$5.00 — Pocket Editions \$5.00 to \$6.00.

At your druggist's, jeweller's or hardware dealer's.

BAYS WON FEATURE AT N.P.A.A.O. YESTERDAY

Regatta Here in 1912—Dan O'Sullivan Elected President of the Association

Victoria won the most important of yesterday's events in the N.P.A.A.O. regatta, the junior four-oared race, while Portland won the three-oared event. The three-oared event was won by the three-oared crew of the Victoria Rowing Club, who were victorious in the final heat.

Portland men took all the sculling events, the junior singles, the junior doubles and the intermediate doubles. The Vancouver Rowing Club was last in the four-oared race.

Conditions for racing were good, the slight current being offset by a light upstream wind, and fast times were recorded. The course was well policed and there were no accidents to mar the afternoon's sport. The results were:

Junior singles—one and one-half miles—A. Prater, Portland Rowing Club, first; E. H. N. Whiting, Vancouver Rowing Club, second; time, 11:10 2-5.

Junior doubles—one and one-half miles—Portland Rowing Club, first; James Bay Athletic Association, Victoria, second; time, 9:27.

Intermediate doubles—one and one-half miles—Portland Rowing Club, first; Vancouver Rowing Club, second; time, 9:41 4-5.

Junior fours—one and one-half miles—James Bay Athletic Association, Victoria, first; Portland Rowing Club, second; time, 11:10 2-5.

The business meeting of the association, which was held later, selected Victoria to be the scene of the 1912 annual regatta.

The following officers were elected:

President, D. O'Sullivan, Victoria; vice-president, F. R. McD. Russell, Vancouver; B. C. secretary-treasurer, H. W. Kent, Vancouver; B. C. delegates, James Bay Athletic Association, Victoria; B. C. Dr. G. A. B. Hall and P. Austin; Vancouver Rowing Club, Vancouver; B. C. George W. Symore and A. H. Smythe; Portland Rowing Club, Portland; Oregon, A. A. Allen and J. J. Watt.

A new status committee was elected, consisting of F. R. McD. Russell, of Vancouver; R. C. Haret, of Portland; and D. O'Sullivan, Victoria.

BASEBALL RESULTS

NATIONAL LEAGUE
At Philadelphia—R. H. E.
St. Louis 9 12 0
Philadelphia 4 9 6
Batteries—Harrison and Bresnahan; Chalmers and Doolin.
At Brooklyn—R. H. E.
Pittsburgh 6 8 4
Brooklyn 7 13 2
Batteries—Steele, Hendrix, Ferry and Simon; Scanlon, Knetner and Bergen, Erwin. Twelve innings.

AMERICAN LEAGUE
At St. Louis—R. H. E.
St. Louis 1 1 0
Boston 6 12 2
Batteries—Lake, Mitchell and Kritchell; Wood and Nunnemaker, Williams.
At Detroit—R. H. E.
Washington 3 10 2
Detroit 6 8 1
Batteries—Gray and Henry; Laffitte and Stange.
At Chicago—R. H. E.
Chicago 5 9 2
New York 3 6 0

COAST LEAGUE
At Portland—R. H. E.
Portland 0 5 2
Sacramento 1 5 2
Portland 1 5 2
Batteries—Fitzgerald and Thomas; Seaton and Kuhn.
At San Francisco—R. H. E.
Vernon 2 1 1
San Francisco 6 9 0
Batteries—Brackentide and Hogan; Browning, Melke and Berry.

At Los Angeles—R. H. E.
Los Angeles 4 8 1
Oakland 3 6 2
Batteries—Yates and Abbott; Kilroy and Mitze.

EASTERN LEAGUE
At Rochester—Montreal, 8; Riches-
At Jersey City (11 innings)—Providence, 3; Jersey City, 4.
At Newark—Baltimore, 1; Newark, 0.
At Buffalo (10 innings)—First game, Toronto, 4; Buffalo, 3. Second game, Toronto, 5; Buffalo, 9.

CANADIAN LEAGUE
At London—Brantford, 5; London, 2.
At Hamilton—Guelph, 5; Hamilton, 11.
At Berlin—First game, St. Thomas, 6; Berlin, 12. Second game, St. Thomas, 5; Berlin, 4.

WESTERN CANADA LEAGUE
At Winnipeg—Calgary-Winnipeg game postponed, rain.
At Brandon—Edmonton-Brandon game postponed, rain.
At Saskatoon—Moosejaw, 5; Saskatoon, 5.

SWIMMING CHAMPIONSHIPS.
There is a strong possibility of the one-mile Canadian swimming championship being pulled off in Vancouver this summer.

George Simpson of the Vancouver Rowing Club, who has held the provincial honors for the past two years at a mile and who won the half mile in 1909, is going better than ever this season and he intends to be right in the running from the start. He swims a strong breast stroke and it is doubtful if there is any man in Canada who can touch him at this particular stroke. He has been practicing steadily at the subject and he expects to keep him out in the long-distance races and has completely mastered it.

The British Columbia championships will be held in Vancouver at the end of the month, and a week later they will be switched to Victoria.

FOURTEEN PERSONS PROBABLY PERISHED

(Continued from page 1.)

are now living in Los Angeles who were married aboard the ship, and that thousands have gone with her on their honeymoon trips. Superstition that the ship was a lucky one and would scatter good luck and prosperity upon the sea of matrimony of those who sailed with her was a strong inducement to young couples.

Surf, Cal. July 8.—Capt. J. O. Farla, commander of the wrecked steamer Santa Rosa, made a statement to-day as he stood on the beach looking at the fragment of which was yesterday a great ship. He placed the blame for the stranding of the vessel upon the shoulders of Third Officer Thomas, who was the officer on deck when the Santa Rosa plunged upon the rocks before dawn yesterday morning. Thomas, in defence, stated that he "never read" the ship's log and thought he was off Point Conception, three miles south of the point where the wreck occurred.

Captain Farla said the current set hard ashore near Saddle Rock, where the vessel struck, and that Thomas neglected to call him, as is customary, to take soundings.

Supt. Allison of the Pacific Steamship Co., who arrived here to-day, said that the vessel was a total loss, and that Captain Pillsbury, surgeon of the Marine Underwriters, had given permission to abandon the wreck after the passengers had been taken ashore.

The officer and crew of the Santa Rosa were quartered last night at a ranch house near the scene of the wreck. This morning they made vigorous efforts to save the baggage and some of the cargo from the all but submerged hulk.

Whether or not there was loss of life among the passengers is still in doubt. Some of the ship's company say positively that from three to eight perished, but as yet no effort has been made to check the passenger list against the survivors.

All the passengers have left for their destinations by train and a complete check will hardly be possible for some time.

Agent's Denial.—The report that the officers of the Santa Rosa were instructed to hold the passengers on board the "Sage" was branded as absurd to-day by General Passenger Agent C. D. Dunann.

"We up here were unable to learn anything about conditions," said Dunann, "and wondered why the passengers had not been taken off immediately. Our first message was to spare no expense to this end, and to make use of the other vessels lying by. We trust entirely to the judgment of the officers."

Campers will appreciate the splendid variety and prices of Weller Bros' famous gold medal camp furniture.

In the police court this morning Frank Helm was sentenced to three months' imprisonment for selling liquor to an Indian. Henri Johnston, who said he was advised to take a bottle of wine for a cold and did so, was fined \$4 and \$1 costs for drunkenness, and advised to change his medical adviser. Wing, a Chinese, went to jail for six months for vagrancy. M. Meek, a vagrant, went to jail for a month.

McDonald, who assumed to be a special officer Walter E. Secret at the C. P. R. dock last night, was fined \$15 with the option of 2 weeks.

The members of the First Presbyterian church choir were the guests of Mr. and Mrs. J. O. Perry, Work St., last night, and spent a delightful time. During the evening Mrs. Ward (nee Miss Cameron) was the recipient of a testimonial from the choir to mark the occasion of her marriage, accompanied by a handsome musical clock, accompanied by an address. Musical selections were rendered by Mrs. Butler, Mr. McKay, Mr. Morrison and J. G. Brown. There were guinea contests, etc., and delicious refreshments were served before the guests departed; after which Lang Syne had been sung and a vote of thanks tendered to the host and hostess.

There were guinea contests, etc., and delicious refreshments were served before the guests departed; after which Lang Syne had been sung and a vote of thanks tendered to the host and hostess.

The members of the First Presbyterian church choir were the guests of Mr. and Mrs. J. O. Perry, Work St., last night, and spent a delightful time. During the evening Mrs. Ward (nee Miss Cameron) was the recipient of a testimonial from the choir to mark the occasion of her marriage, accompanied by a handsome musical clock, accompanied by an address. Musical selections were rendered by Mrs. Butler, Mr. McKay, Mr. Morrison and J. G. Brown. There were guinea contests, etc., and delicious refreshments were served before the guests departed; after which Lang Syne had been sung and a vote of thanks tendered to the host and hostess.

Gorge Waterfront

We have for sale some of the choicest waterfront at the Gorge. On two of the lots there is a stone pier and bath house.

With the increase of population residential waterfront is going to increase more rapidly than other residential property because it is limited. The property we offer cannot be excelled and is only a block from the car line.

You can take a salt water bath every morning, and a few minutes either by tram or launch will take you to business. It is a beautiful spot.

Prices and terms favorable.

UNEVENTFUL PASSAGE HERE FROM YOKOHAMA

Kumeric Arrives—Sixteen Days Out—Has Many Passengers—Officer Gray Well

Slightly over sixteen days from Yokohama, the Weir liner Kumeric, Capt. McGill, arrived at the outer dock early this morning after an uneventful passage across the Pacific. According to her schedule the steamship should have docked here on Thursday morning, but it was explained to-day that she was detained two days while in the Orient. Fair weather was encountered throughout the passage, and the Kumeric made her regular time coming to this port. Stowed in the holds of the Kumeric was about 6,000 tons of general freight for Victoria, Vancouver and Puget Sound points. She discharged while at the outer wharf over 200 tons of cargo, including matted rice, sugar, porcelain and curios. The steamship brought a large shipment of hemp from Manila, but her silk consignment amounted to only 80 bales. Many thousand bales of gunnies were shipped from the Orient, and the officers state that they have established a new record for the number of these bundles of sacks carried. As passengers the Kumeric brought across 40 Chinese as steerage and four Europeans as cabin passengers. Those in the saloon were: Capt. W. R. J. Tutt, who will leave the vessel at Vancouver; Mr. and Mrs. Betemann and Chas. Anderson, who are bound for Seattle. All of the Orientals, with the exception of one, debarked at this port, the sole remaining Celestial desiring to try his lot in the Terminal City.

Capt. McGill, when asked this morning as to the condition of Chief Officer Gray, who it will be remembered was nearly killed when the Kumeric was making her way across to Yokohama two trips ago, stated that he had fully recovered from the effects of the accident and had returned to England. At first it was expected that owing to the nature of his injuries he would be missed for life, but he is now again fit to take his watch on the bridge.

COMING HERE WITH CARGO OF NITRATE

Hornelen Expected To-morrow—Panama Maru Leaves for Orient—Boeric Out

Bringing a cargo of nitrate from Chilean ports for the Victoria Chemical Works, the steamship Hornelen, under charter to the Grace line, will arrive here some time to-morrow, having left San Francisco on Thursday. She will come inside the harbor and tie up at the Chemical Works' wharf to discharge her cargo. The Hornelen, which operates in the trade between Puget Sound and the west coast of South America, is the first vessel to bring nitrate to this port for some time.

Shortly after noon to-day the Onaka Steamer, Katsuta liner Panama Maru, Capt. K. Matsui, left the outer wharf laden with a good cargo for Yokohama and Hongkong. She carried over 100 sewing machines to facilitate the methods of dress-making in Japan, phonographs, automobile tires, toys and various other mechanical instruments, outside the regular cargo of lumber, flour, wheat and heavy machinery.

On Wednesday of next week the Seattle Maru, of the same line, is due to arrive here from the Far East, and it is expected that she will dock on Tuesday, as the Onaka steamships generally make the trip one day faster than their schedules call for. She is reported to be bringing a big cargo of general Oriental products and many passengers, including a large number of Chinese in steerage.

To take on fourteen Chinese as members of her crew, the Bark liner Boveric returned on Monday to discharge about 200 tons of freight.

It is expected that the Blue Funnel liner, Proteus, Capt. Campbell, will return on Monday to discharge about 200 tons of freight.

REACHES QUEENSTOWN AFTER SLOWEST TRIP

British Ship Blytheswood Out 158 Days From Sound With Grain

Delayed reports reached this city yesterday from England announcing the arrival of the British ship Blytheswood at Queenstown from Tacoma with grain. She reached the Irish port on June 19, after having made the passage in 158 days, which is the slowest time made by any of the grain carriers which left the Sound this year. The Blytheswood has always been looked upon as a smart sailer but as she was spoken in the South Pacific north of Cape Horn 81 days out it was believed that she must have encountered some heavy weather in making the run down the coast.

The ship was reported to have been in shipping circles along the coast as to her safety, due to the apparently prolonged passage, as it was feared that she was 175 days out on Thursday. Some supported the theory that she must have foundered, while others felt certain that she would turn up soon. The dispatches received yesterday, however, dispel all mystery, while the Blytheswood still takes the honor of being the slowest ship of the fleet.

On January 12 the Blytheswood passed out from the Sound, commencing her long trip. She left Tacoma a week earlier than this, however, but owing to the heavy gale which was raging outside had to lie in Neah Bay for seven days before she was able to get clear of Flattery. Within a few hours of the British ship a French sailing vessel cleared and shipping men were looking for a tight race between the two craft. The French vessel won by nearly a month, having escaped all rough weather and finished a particularly fast passage from the Sound to England.

With the reporting of the Blytheswood, all of the 1911 grain fleet of Puget Sound have been accounted for. Some of the sailers made exceedingly fast trips, which stand as records for the distance.

MUCH OPIUM SEIZED.
Over \$22,000 Worth of Drug Found Aboard Steamship Siberia.

San Francisco, July 8.—One of the largest seizures of smuggled opium ever made at this port was accomplished yesterday, when 527 pounds of the drug were taken by customs house officers from one of the coal bunkers of the Pacific Mail steamship Siberia, which arrived on Thursday from the Orient. The contraband opium is valued at about \$22,500. In order to obtain it, 500 tons of coal were removed. The seizure was made by Captain T. Stone, as-

sisted by customs inspectors John Mead and J. Tolland, who are continuing the search, believing that more opium is concealed on the vessel.

MARINE NOTES

The Allan liner Tanager will arrive at Montreal this evening from Liverpool.

Canadian shipping returns show a gradual but steady increase in regard to the number and tonnage of ships. At the end of the year the number of vessels registered was 2304, measuring 750,929 tons. This is an increase of 136 vessels and 32,316 tons compared with the previous year. It is estimated that 40,670 men and boys are employed on ships registered in Canada.

Word reached here yesterday that the schooner Alex. T. Brown, which last week put into Honolulu in distress while on a voyage from Puget Sound to Valparaiso, was not badly damaged in the storm which drove her half way across the Pacific. Capt. T. McCay, of the Brown, reports that following a

survey of the vessel at Honolulu it was ascertained that all that had happened to the schooner was the loss of a tree-sail from one of the planks on the vessel's hull. The Brown will proceed immediately on her voyage.

"A Most Valuable Food"

At a time when the preparation of artificial foodstuffs is receiving more attention than ever before, and when new forms of easily assimilable fat to take the place of cod liver oil are being freely introduced, it is not surprising that at the close of the administration of natural fats should not be lost sight of. Among natural fats, butter easily takes first place for nutritive value, and when combined with a suitable soluble carbohydrate, a most valuable food is produced.

The BUTTER SCOTCH which Messrs. Callard & Bower (Duke's Road, Easton Road, W.C.) have prepared for fifty years, is such an article, which has the great advantage of being palatable, so palatable, in fact, that children are more likely to need restraining from excess than any persuading to take it. This BUTTER SCOTCH is stated to contain 11.7 per cent of fat and 79.3 per cent of sugar, and the results of an analysis which we have made recently of a specimen substantially confirm these figures; further, chemical examination of the fat extracted showed it to be genuine butter fat. This confection can therefore be recommended, not only as a harmless sweetmeat, but also as a very useful addition to the diet in suitable cases. In all the Principal candy stores in Victoria.

BLOCKADE CAUSED BY WOOD BLOCKS

THEIR SHORT DELIVERY
MEANS EXTRA COST

City Solicitor Will Take Action
to Bring Company Up
to the Scratch.

The delay in the turning out of the concrete blocks from the city plant was the subject of a report to the city council last night by Mr. McEachern, who is responsible for the work. He claimed that the blocks which are supplied by the Canadian-Puget Sound Company were not delivered to him fast enough, and that in consequence the cost of his end of the work was considerably more, as the same blocks they had to use would turn out thousands more per day than they got. At the present time they were spending \$20 per thousand when \$15 should be quite sufficient. The shortage had been taking place since the contract was given and he wanted something to be done in regard to it.

After hearing the report the council threatened legal proceedings against the company, but when it was learned that only a small portion of the contract remained to be executed it was decided to merely refer the matter to the city solicitor for action.

A request by the Pacific Coast Construction Company to have the Dallas Road sewer wall made thicker to facilitate the placing of the re-inforcing material was promptly turned down by the council. The company alleged that because of the thickness of the upper portion of the wall it was almost impossible when the wooden forms are in place to insert the necessary material. The matter had been submitted to the provincial engineer, Mr. Griffiths, who had stated that he would not oppose the change so long as the extra cost was not leveled against the government. The extra cost was estimated at \$3,400, and Mr. Griffiths would not commit the government to any part of that.

Alderman Langley moved that the request be rejected. Alderman Okell seconded, and the motion carried. A petition against the continued existence of the city jail was brought before the council last night above the signature of J. M. Malcolm and several others. Their plea was that the jail was insanitary, totally lacking in all modern equipment, and furthermore was an eyesore to the district in which it stood. They urged that in the interest of the institution itself as well as in the interest of the locality in which it is at present situated, a new site be secured and a more modern structure be erected. The petitioners alleged that the council was well aware of the jail's condition, and that it was proving detrimental to the interest of the property owners in the district.

The extension of the fire limits of the city was discussed at some length on the report of the committee appointed to investigate the matter and it was agreed (as other agreements) that the council should have a drive round the line on Tuesday morning for the purpose of testing the rectitude of the proposed new fire boundaries.

In connection with the fire department it was also reported that during the month of June the brigade responded to sixteen alarms. The total losses by fire during the month amounted to \$250, while the insurance carried by the affected structures amounted to \$20,000. Chief Davis reported that he had accepted the new motor apparatus. The new fire halls are now nearing completion and it is expected that they will be ready for occupancy by August 1st.

Hutchinson Bros. secured the contract for the cluster lighting of View street at a cost of \$4,450. The contract for the supply of 1,600 square yards of sand for the filler beds at Elk Lake was awarded to J. Merriman by ballot. W. Symonds tendered the same price for the same material. The price quoted was \$1.10 per yard.

The sum of \$1,900 will be expended on furnishings for the new buildings at the isolation hospital, on the recommendation of the medical health officer and Alderman Okell. Tenders for the necessary equipment will be invited forthwith.

"Say," roared the angry citizen as he bounced into the office of the country newspaper, "where's the editor?" "Want to see him personally?" queried the office boy. "Of course I do," answered the caller. "I'm going to thrash him within an inch of his life." "Oh, all right," answered the boy. "Just take a seat, please. There's three others ahead of you. If you wait, you'll see 'em come through the window one by one. When the third comes down you can go up." The visitor decided to put off the thrashing until later.

GREAT DELUSION ON THE STATUTES

MUNICIPAL CLAUSES ACT
IS ROUGHLY HANDLED

Council Resolves to Ask Government to Appoint Commission to Draw Up New Act.

"No lawyer will disagree with me when I say that the Municipal Clauses Act is the greatest delusion on the statutes. It is a good thing for the lawyers, but it is a snare and a delusion for the public and for the cities governed by its provisions. It is hopelessly out of date, and certainly ought to be brought into line with more modern legislation. I would suggest that a private charter be obtained."

This is how Alderman Langley summed up the act under which Victoria and other provincial cities are at present operating, and from which ridiculous bondage Mayor Morley introduced a resolution to the council last night to free them.

The resolution, which was in the following terms, was carried after some discussion: "That the mayor and council of Vancouver and New Westminster be requested to co-operate with the mayor and council of Victoria in memorializing the provincial government to immediately appoint a commission, consisting of the mayor, the chairman of the legislative committee, and the city solicitor of each of the named cities, to draft a revised act for the government of cities of the first class, the commission to report to the government through the attorney-general's department in time for its introduction at the next session of the legislature; further that the city solicitor be instructed to draft the memorial, to be signed by the mayor, with the seal of the city, the city solicitor also to draft an explanation of the necessity and value of the proposal, to be forwarded with the memorial; the latter to be returned signed and sealed for presentation to the government."

In introducing the resolution Mayor Morley said that they had found themselves absolutely blocked from year to year for the want of necessary legislation. He thought it would be reasonable if, for the want of straining a little, they let things go for another year. He had framed the resolution to invite the co-operation of other cities, as he thought that that was the only way in which they could hope for success with the government in such a matter. There was no reason why Prince Rupert and other cities not mentioned should not also co-operate in the project.

City Solicitor McEachern then explained to the council the total unworkability of the present act. In some places he was absolutely at sea as to its meaning. In fact, it was generally recognized that on certain points it did not possess an intelligible meaning at all.

While fully conscious of the shortcomings of the act, Ald. Fullerton thought that the council was going about the remedying of the difficulty in the wrong way. In the past all such questions of legislation had emanated from the B. C. Union of Municipalities, and he did not see why in the present instance the past practice should be departed from. He did not find anything exceptional in the circumstances. They had had the same difficulties to contend with in the past. Furthermore he did not understand how Vancouver was going to help Victoria. She had a charter of her own and was not likely to interfere on behalf of Victoria. Nanaimo was more in line with Victoria for that matter.

Alderman Moresby relied on the ascertained fact that very little had yet been achieved in this respect by the Union of Municipalities, for arguing that it was now about time to stop pursuing these tactics. There was no doubt about the unworkability of the present act. It could not be consolidated in any way. A new act was absolutely necessary.

Mayor Morley, in reply to the criticism of Ald. W. F. Fullerton, said that while he appreciated the Union of Municipalities very highly, if they waited until they would wait till "Kingdom come" legal talent was all very well in the drafting up of the new act, but these legal luminaries had to be informed by the men who were running the cities. He doubted if the best of legal minds could frame an adequate law unless perfectly familiar with the needs and circumstances of the city to which it was to be applied.

Aldermen Bishop and Peden also expressed themselves in favor of the resolution.

The city solicitor explained that the new act would be drafted by the city solicitors of all the cities interested, according to the directions and instructions of the municipal bodies, and would, when completed, virtually amount to a private charter. He had no doubt that the Union of Municipalities would give their hearty support to such a proposition.

—Campers will appreciate the splendid variety and prices of Weller Bros' famous gold medal camp furniture.

Among the Churches.

METHODIST.

Metropolitan.

The pastor of the Metropolitan church, Rev. J. M. Wadman, D.D., of Honolulu, Dr. Wadman is well known to the older residents of Victoria, having filled the pastorate of the Central Methodist church some twenty-two years ago. The evening service will be preceded by an organ recital commencing at ten minutes past seven, in which Edward Parsons will officiate at the newly installed organ.

Illustrated Lecture.—On Monday evening Dr. Wadman will afford the public a special opportunity of hearing, first hand, much about the Hawaiian Islands, when he will lecture in the lecture hall on "Pictorial Hawaii," which will be illustrated by stereopticon. Hon. A. E. Smith will preside at this lecture, which will commence at 8.15. No charge will be made for admission, but a collection will be taken.

Rev. J. M. Wadman will continue his series of sermons on the "Lord's Prayer," when "Forgiving and Forgiveness" will be the subject.

James Bay.

Epworth League.—A very interesting Epworth League meeting was held on Monday last, when a paper was read entitled "Learn to Live." A good crowd was present. Next week's Epworth League is to be addressed by Dr. S. S. Singh, a distinguished Hindu at present in Victoria. The Hindu question will be the topic for discussion.

S. S. Committee.—The Sunday school committee of management held its quarterly session on Tuesday last, when much business was got through, including the settling of all accounts incurred by the recent picnic.

Ladies' Aid.—During the week the members of the Ladies' Aid took the opportunity of the fine weather to combine business and pleasure, when they met in session at the Gorge park. After the business was concluded a number of friends joined the ladies over the social cup.

Victoria West.

Epworth League.—Last Monday evening the Epworth League indulged in a series of papers, the principal of which, however, was that by Mrs. Hamilton, which was very helpful and stimulating.

Tomorrow's Services.—The pastor will be present at both services to-morrow, preaching in the morning on "Conscience" and in the evening on "Friendship."

Esquimalt.

S. S. Picnic.—On July 1st the teachers and scholars of the Sabbath school took their first annual excursion to grounds in the vicinity of "White Lady" rock. Considerable rivalry was manifested in the sports, while much amusement was evoked among the spectators by some of the novel contests which were made. A splendid meal was prepared at mid-day, and though reserve was made so that the evening's meal might eclipse the noon repast, it had to be carried back to the homes, the rain coming on so heavy at the time. Being disappointed of a longer day, prizes were distributed to successful contestants, and an early return made by launch and wagon.

STRAWBERRY VALE.

Mission Growing.—The newly appointed pastor is taking hold of his work in good style, and is winning a larger and larger circle of hearers, especially on Sunday evenings, chairs having to be

brought in to help out the usual seating accommodation.

Presbyterian.

PRESBYTERIAN.

First Church.

Pastor's Vacation.—Rev. Dr. Campbell will leave on Monday next for a month's vacation, to be spent, we understand, in the rural districts around Victoria. He will occupy the pulpit at both services to-morrow.

St. Columba.

S. S. Outing.—Macaulay plains was visited on Dominion Day by Sunday school officers and scholars, and a thoroughly enjoyable time spent. All the games and races, etc., were happily concluded before the shower came on, so that nothing was interfered with thereby.

Communion Service.—To-morrow morning communion service will be held when the pastor will officiate.

BAPTIST.

First Church.

Special Sermons.—During the month of July Pastor Warnicker is preaching a series of sermons on Sunday evenings on "Famous Cities of the World." The topic for to-morrow evening will be "The City of the Martyrs."

Young People's Outing.—On Monday evening the young people of the church will hold their first outing of the summer. They will journey to Fisher's beach at Esquimalt, where tea will be served by the members of the social committee. All having the inclination are invited to join the young people in having a good time on this occasion.

B. C. Baptist Convention.—The annual convention of Baptist church of British Columbia will assemble this year in the handsome new edifice of the First church, Vancouver, on Thursday, the 25th inst. A splendid programme has been prepared by the committee appointed for that purpose, and a successful gathering is anticipated. Delegates from all the Baptist churches of the province will be in attendance. The following have been appointed from First church: Pastor Warnicker, Mrs. Warnicker, Mrs. M. E. Walker, J. W. H. King, B.A., Dr. W. Russell, H. DeWitt, C. H. Oliver, and represent the young people, Mrs. J. W. H. King, the ladies' societies and Mrs. M. Middleton the Sunday school. Delegates will also be appointed from the Victoria West and Burnside missions.

S. S. Picnic.—As the annual picnic last Saturday had to be somewhat abbreviated on account of the weather, the staff of the Sunday school are planning to hold another in the near future. Due notice of time and place will be given.

CHURCH OF ENGLAND.

St. Barnabas.

S. S. Picnic.—The children of St. Barnabas are not lost sight of by any means. On the 15th of July the Sunday school scholars are to be entertained at Langford Plains. The journey will be made by train and the usual amusements and refreshments will be provided.

Sick Headaches and Nervousness

"Fruit-a-tives" Completely Cured Me.

Letter Oct. 12, 1910.

It is my first letter, and every man should take "Fruit-a-tives" if he wants to keep himself in good health.

Before taking "Fruit-a-tives" I was constantly troubled with what is commonly known as "Nerves" or severe nervousness. This extreme nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking Doctor's medicine.

Constipation was also a source of great trouble for which the Doctors said "I would have to take medicine all my life," but "Fruit-a-tives" has banished these troubles and I am a well woman.

When I started taking "Fruit-a-tives" I took four at a time, but have reduced the dose so that it is only necessary for me to take one in a week, and that one "Fruit-a-tives" tablet every week keeps me well.

MRS. FRED GADKE.

It is wonderful how quickly women get better when taking "Fruit-a-tives." These famous fruit tablets relieve headaches and tone up the whole nervous system. They regulate the bowels, strengthen the stomach, stimulate the appetite, and take away that pain in the back. Pale, weak, nervous women should always use "Fruit-a-tives." 50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

vided. The parents of the children will be heartily welcomed on this occasion. Choir Boys' Camp.—The rector is busy making arrangements for the annual choir boys' camp. The week intervening between the 19th and the 24th is the time fixed for this event, and while the location is not definitely settled, it is fully hoped that it will be on one of the Gulf Islands.

A Generous Response.—Rev. E. G. Miller is greatly encouraged and deeply thankful for the excellent response to his appeal on behalf of Mrs. Kirby. A cheque just to hand of \$250 makes the total over \$1,000.

St. John's.—The members of the Women's Auxiliary to Missions provided a splendid afternoon's entertainment on Tuesday last at the Gorge Park. Boating, swimming and games were all indulged in, and the appetites thus obtained were amply provided for on the well filled tables which were daintily decorated by the colors of the auxiliary, all worked by means of roses. Rev. and Mrs. Hay, of Winnipeg, were the guests of the day.

St. Paul's, Esquimalt.—New Vestry.—The new vestry which was so seriously needed is now complete and is already quite a boom and pleasure. The furnishing of the vestry is being undertaken by the ladies of the

church, who are planning a series of garden parties and lawn socials. This series includes what ought to be a very enjoyable party to be given at the home of Mrs. Lyle, Stonehouse Park, on Armit street, between Lampson and Fraser streets, on Tuesday next. No happier place could be desired for such a gathering than Stonehouse Park, and a large attendance is expected. When the furnishing of the vestry is completed efforts will be made to replace the handsome though considerably worn organ by one worthy both of the time and place.

Services for Sailors.—In view of the departure of H. M. S. Shorewater and Algerine for their annual cruise, farewell services will be observed to-morrow.

REFORMED EPISCOPAL.

Church of Our Lord.

Garden Party.—Yesterday a delightful garden party was held on the grounds of the residence of Miss Carr, corner of Simcoe and Government streets. A good sized company availed themselves of the fine day and thoroughly enjoyed the decidedly attractive programme.

Tomorrow's Services.—To-morrow evening the series of sermons on the Life of Moses will be continued by the pastor, while the subject of the morning's sermon will be "Triumphing God by playing."

ENGLISH LUTHERAN.

Grace Church.

Organization.—After the strenuous work attached to the dedicatory services of the new church the various departments of church work are now engaged in the matter of organization. This will entail much work, especially during the warm weather, but everything will be in readiness when the proper time comes.

Voices for Choir.—Candidates for the choir are very much in demand, so that any who care to serve the church in this way are asked to communicate with the pastor, Rev. Mr. Dralor. Picnic.—On Thursday next the members of the church and Sunday school are invited to a picnic to be held at Gorge Park, which is being arranged for by the Ladies' Aid of the church. All members of church and Sunday school are cordially invited.

CITY MISSIONARY

IS TO BE APPOINTED

Council Consisting of Ministerial Association and City Churches in Charge

In the early part of the year, at the meetings of the Ministerial Association of this city, interest was aroused in problems of criminology, especially those relating to improved methods of treating prisoners. Some steps were taken in this direction, and among these was the making of arrangements for the appointment of a city missionary.

The plan proposed is the organization of a council consisting of the Ministerial Association, a member from each congregation represented in the association, and six others to be chosen by those already named. The purpose of this council is to arrange and supervise the work, make provision for the financial requirements and employ the missionary. A meeting of the council was called for the 6th of June, which was well attended. Owing to the fact that the subject was quite new to a number of those present, the discussion proceeded over a considerable area. It was therefore deemed wise and so decided to adjourn for a month, and in the meantime thoroughly consider the matter. The adjourned meeting was held on Tuesday last, when the following resolutions were adopted:

1. That the council for the appointment and supervision of a city missionary for the city of Victoria be and hereby is constituted according to the recommendations of the Ministerial Association.
 2. That nominations for the six additional members of the council be brought forward at next meeting.
 3. That a committee be appointed to consider and report upon the following subjects: The plan of work, the financial support required, the discovery of suitable persons who might be appointed to undertake the work.
 4. The committee appointed to be the president, the secretary, Rev. T. W. Gladstone, H. M. Hillis, R. Noble, John Clements and Arthur A. Boen.
- The meeting then adjourned to meet again at the call of the president.

MAROONED ON ISLAND.

Employees of Lumber Mill at Golden Have Unpleasant Experiences on Columbia River.

Golden, July 7.—J. Waller and L. Hoyle, employees at the mill, a few days ago started out on a boating trip, and as they did not return within a reasonable time uneasiness was felt. The next afternoon the Columbia River Lumber Company appealed to the government Chief of Police Cameron had a search party out within half an hour after the appeal was made.

The following morning Mr. Gould, who was looking for his cattle, heard calls from the island, which is situated within a mile from town. Despite the swift current and the great danger of the river in its present state Mr. Gould with commendable promptitude dived himself in his clothing and swam across, finding the two men, Hoyle and Waller, in a famished and miserable condition. Mr. Gould swam with the men, one at a time, and got them to the mainland, making four trips in all.

It appears that the boat sprang a leak soon after the men started on their trip and had to be beached on the island. Hoyle and Waller experienced considerable hardships without either food or fire.

FOUND DEAD IN ROOM.

Vancouver, July 7.—Despondent, it is claimed, over matrimonial troubles, J. W. Moore, an American from Everett, Washington, committed suicide in his room at the Central Mission. When he

went to his room at 8 o'clock at night the clerk in charge noticed nothing strange about him, but the following morning he failed to appear, and when entrance was effected to his room he was found dead on the bed with a bottle of carboic acid beside him. The deceased left a note to his brother at Lake Stevens, Everett, saying goodbye.

SCHOOL PRINCIPAL RESIGNS.

Nelson, July 7.—Samuel Acheson, at the closing exercises at the Hume public school sprung a surprise by announcing that he had decided to resign the position of principal which he has occupied for the past 18 months. The announcement was made during a speech by Mr. Acheson thanking the pupils of the school for a presentation of an address and a pair of military hair brushes. This presentation was made by the children.

Presentations were also made to the children to Miss Evelyn Bates and Miss McEwen, who were the recipients of pearl studded brooches.

TWO DESPERATE CASES

These Two Men Owe Their Lives to GIN PILLS

Stone in the bladder is a direct result of kidney trouble, one of the results of neglecting the kidneys that have taken cold or are slightly out of order. Mr. Herman and Mr. Lessard, whose letters are given below, were in a bad way until they tried GIN PILLS, which cured their trouble by removing the cause.

There is no other kidney pill anywhere that has the merits of GIN PILLS. Sick and diseased kidneys respond quickly to their treatment. Many a case of incipient Bright's or Diabetes has been cured by them. They cleanse, restore and build up the entire urinary tract.

573 James St. North, Hamilton, Ont.

Gentlemen,
Four years ago I was taken down with inflammation of the Bladder. During the attacks, which occurred more and more frequently, the agony was unbearable, and I became so weak I could not walk across the floor. The doctors could do nothing to relieve or cure me.

My wife sent for a box of GIN PILLS to try and see if they would help me. From the first they did me good—the pain was relieved at once, and the attacks began to come at longer intervals. I continued taking the pills for six weeks, and then, to my surprise and delight, the stone I sent you some time ago came from me and my pain stopped. It is now three years since GIN PILLS cured me. I have had no return of the trouble, and I have not lost a day's work on account of it since.

There is not the slightest doubt that GIN PILLS saved my life. Yours gratefully,
JOHN HERMAN.

Jollette, P. Q.

During August last, I went to Montreal to consult a specialist as I had been suffering terribly with stone in the Bladder.

He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try GIN PILLS.

They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take GIN PILLS, and to my great surprise and joy, I passed the stone.

GIN PILLS are the best medicine in the world and because they did me so much good, I will recommend them all the rest of my life.

J. ALBERT LESSARD.

GIN PILLS are no untried, doubtful remedy. GIN PILLS have been used for years by thousands in every section of Canada. They are guaranteed by the largest wholesale drug houses in the world—and your money will be promptly refunded if GIN PILLS fail to give relief as guaranteed. 50c a box—6 for \$2.50. Sent on receipt of regular retail price if you are unable to get GIN PILLS in your neighborhood. Sample box absolutely free to all sufferers from kidney and bladder troubles. Pain in the back in the region of the kidneys, swollen joints, Rheumatism, Lumbago, non-retention of urine, Brick Dust Deposits, Mucous or Bloody urine, etc., if you write National Drug and Chemical Co. of Canada Limited, Department V. T., Toronto, Ont.

ARGUMENT OVER CITY PIPE YARD

CHAOTIC STATE OF ALDERMANIC MIND

Subject is Talked Out of Sight
Without Any Decision
Being Arrived At

The question of the proposed new
city pipe yard represents a problem
which the city council of Victoria is
no nearer the solution of than they are
to the introduction of the millennium.
If instead of talking about appointing
a commission to perform the work of
the future they could induce an out-
side body to assume the responsibility
of solving this vexed question no one
around the aldermanic body would be
the least bit sore at the temporary
usurpation of their powers.

When the matter was introduced at
the council meeting last night at a
late hour it was thought that it would
find a speedy settlement. The reverse
was the case. Everyone who had a
spoke to put into the project put it
in good and hard, with the result that
when the extended time limit was
reached the only motion before the
house that could get a majority was
the motion to adjourn.

Alderman Bishop reiterated his
views on the subject, condemning the
proposal to dump the yard in the
Spring Ridge district on the ground
that it would be detrimental to the
interest of the property in the district.

Alderman Hunter did not think
that the site was a suitable one for
the purpose. As a business proposi-
tion he said the scheme had not a leg
to stand upon. The waterfront was
the place to locate the yard, irrespec-
tive of the cost. If they really wanted
a pipe yard they should be prepared
to pay for it. He also endorsed the
remarks of Alderman Bishop in regard
to the nuisance to the residents of
Spring Ridge involved in the locating
of the yard in their midst.

Alderman Moresby, having seen the
proposed site was in favor of it with
slight variations. Which took the form
of eliminating the Potter saloon and a
portion of the property, making the
total area of the yard five acres in-
stead of seven. While taking that
stand he wished to go on record as
opposed to the idea of the city spend-
ing so much money, \$45,000, without
obtaining the sanction of the people.
Furthermore, he was one of those
members of the council who were of
the opinion that the purchase of the
yard was dependent on the sale of the

other city lots, the authorization of
which had been defeated by the
people. How the \$45,000 got into the
estimates was more than he could say,
but he certainly did not approve of it.
However they had now arrived at the
situation where the pipe yard was
necessary and it was up to them to
make the best of it. He had inspected
the site and with the qualification
before mentioned he was in favor of
going on with it.

Ald. H. M. Fullerton explained that
he was of the same opinion in regard
to the suitability of the location. It
was the only place in the city for the
purpose.

Mayor Morley then jumped into
the breach with an attempt to con-
vince the residents of Spring Ridge,
some of whom were present at the
meeting, that the pipe yard, so far
from proving a nuisance and an eyes-
ore, would be a thing of beauty and a
joy forever.

Alderman Ross thought the site lay
too low.

Mayor Morley then called upon Mr.
Northcott, the building inspector, and
Mr. Raymur, the water commissioner,
to express their opinions upon the
subject; and they did so despite the
contented that their opinions had been
well schooled and were therefore un-
necessary and useless. Both officials
favored the location suggested, al-
though the former said he would have
liked to see it more central if pos-
sible.

Ald. W. F. Fullerton then had a
proper kick at the scheme. He went
over the argument advanced by Alder-
man Moresby, alleging in addition that
the \$45,000 had been placed in the
estimates for the independent purchase
of the site "by hook or by crook." He
claimed that it was understood by
every alderman on the board that the
purchase of the one piece of property
was to be dependent on the sale of
the other.

Ald. H. M. Fullerton denied this
statement, saying that he understood
the whole thing properly.

Proceeding Ald. W. F. Fullerton
stated that at all events Alderman
Moresby and himself understood it so,
and that was enough for him. Facing
the situation as it stands he suggested
that they could easily wait till the end
of the year now when the matter
could be put before the people in the
exact knowledge of where the site was
going to be.

Up to this time the only motion
before the meeting was the one for
reconsideration which carried.

In a minute a series of futile
motions were being hurled at the head
of the city clerk, but the city solicitor
explained that a by-law could only be
repealed by another by-law.

Alderman Okell moved that the city
solicitor be instructed to draft a by-
law to repeal the other and to provide
for the referendum vote on the ques-
tion at the end of the year.

As the time limit was then up, how-
ever, the motion was not put and the
adjournment brought an end to an-
other abortive discussion on this tick-
lish question.

RESPECTED PIONEER PASSED AWAY TO-DAY

George Winter Resided in This
City 50 Years—Had In-
teresting History

In the person of George Winter, 1510
Fairfield road, who died this morning
at the Jubilee hospital after an illness
of four or five weeks duration, there
passed away one of Victoria's oldest
and most respected pioneers.

Mr. Winter was 72 years of age and
last year completed half a century in
Victoria. He was born at Titchfield,
Hampshire, England, and first came to
this city on board the Bacchante, which
was sent here to relieve the battleship
Ganges. In the early sixties Mr. Win-
ter went into the Cariboo, packing his
supplies in from Port Yale, and short-
ly afterwards went with the rush to
Big Bend. After several years spent in
the gold country, without much success
he, having become enamored of Victo-
ria, returned and remained here until
his death.

On settling down in this city Mr.
Winter was employed for some years
as a coachman, afterwards establishing
the Winter livery stable, which remain-
ed a landmark in the city until the
owner sold out to the Victoria Transfer
Company about eight years ago. He
was married twice, leaving four chil-
dren, Robert, of Victoria; John, of
Whitcomb, Yukon; Mrs. S. W. East-
man, Lawrence street; and Mrs. A.
McDonald, Moss street, by his first
wife, whom he married shortly after
his arrival in this country, and two
young boys, Arthur and Howard, by
his second, to whom he was united in
marriage some eight years ago and
who survives him.

It was while serving in the Imperial
navy in the days of Queen Victoria,
that Mr. Winter built up that rugged
constitution, which enabled him to defy
the ravages of time and to remain in
robust health until just recently.

"In those days," the navy was differ-
ent. The mere fact that the day was
cold and that the boys, swaying on the
yard-arms, would soon become chilled
with cold, did not enter into the cal-
culations of the officers at all. And it
was nothing unusual for a man to be
spread-eagled on a grating and given
half a dozen strokes of the cat-o'-nine
tails for some trivial offence."

He often recounted anecdotes touch-
ing the life of the late King Edward,
whom he recalled as a boy.

Mr. Winter's first position in Victoria
was as a coachman for Governor Kennedy,
the first English governor to be sent
here, and he afterwards served in the
same capacity to Governors Seymour,
Sir Joseph Trutch, Cornwall and Rich-
ards. In the course of his duties he

Wherethe Market is Active

Pandora Avenue

With the proposed improvements to this street, it offers a field for investment second to
none in the city. Oak Bay district will be drained directly down this street, and it will be the
main business artery running East and West. We offer the following properties, which are
the lowest priced in their respective vicinities.

60x120, BETWEEN BLANCHARD AND
QUADRA, lane at rear. Price **\$30,000**
30 FEET, NEAR DOUGLAS STREET.
Price, per front foot **\$1,000**
50x150, NORTH SIDE, BETWEEN VAN-
COUVER AND COOK. For to-day only.
Price **\$15,000**

35x120, NEAR VANCOUVER, with mod-
ern house. One-quarter cash, balance
over two years. Price **\$6,300**
30x120, NEAR QUADRA STREET. Price
is **\$10,500**
50x120, NEAR COOK STREET, with mod-
ern 8 room house **\$10,500**

James Bay Waterfront

We have over 1,000 feet of waterfrontage in this district for sale, that will in the near
future all be used for commercial purposes. It will then be held at much higher figures
than it is now offered for, and should prove a safe and profitable investment.

Waterfront Special

TWO LOTS, 60x120 ft. each, good location;
\$5,000 per lot cheaper than any other
James Bay waterfront lots offered. Price,
each **\$15,000**

View Street

60x120, with dwelling, between Vancouver
and Cook. Absolutely the cheapest offer-
ed in this block. Price **\$10,500**

Marriott & Fellows

Open This Evening

drove many notable visitors, including
all the visiting governor-generals. He
acted as coachman to Lord Dufferin on
the occasion of his visit to Victoria.
When the Marquis of Lorne, now the
Duke of Argyll, and the Princess Louise
visited Victoria Mr. Winter was en-
gaged as their coachman and was pre-
sented with a photograph bearing her
autograph by the Princess Louise.
The funeral, which is being arranged
by the B. C. Funeral Furnishing Com-

pany, will take place from the house
on Monday afternoon at 2 o'clock and
half an hour later from Christ Church
Cathedral. The members of the Ancient
Order of Foresters, to which the de-
ceased belonged, will attend.

Mme. Sarah Bernhardt during her re-
cent tour travelled 5,000 miles, visiting
125 Canadian and American cities, giving
200 performances and won nearly \$1,000.

PILES Dr. Chase's
Ointment is a certain
cure for each and
every form of
itching, bleeding
and protruding
piles. See testimonials in the press and ask
your neighbors about it. You can use it and

Full particulars can be obtained at the office of H. S. Griffith, Architect, 1004 Government Street.

CITY GOVERNMENT BY COMMISSION

Committee Selected to Prepare Draft of Proposed Changes at Vancouver

Vancouver, July 7.—Aldermen Stevens and Ramsey were appointed at a meeting of the civic annexation committee to prepare a draft of the proposed changes to the city government to admit of government by commissioners. The draft is to be considered by the city solicitor and the city council, and then forwarded to the provincial government in order that special legislation may be prepared. The government will also be asked to amend the city charter so as to conform with the commission government legislation. The attorney-general's department will be communicated with relative to a "model act."

The members of the committee discussed the proposals in a general way. They agreed that a commission form of government would expedite business in the city, although there was some doubt expressed as to whether good commissioners could be secured at \$5,000 per year.

Alderman Macpherson expressed the view that the commissioners should take charge of the license, police and fire department work so as to avoid the confusion which, it is claimed, at present exists. Aldermen Stevens pointed out that it would be necessary to pass a by-law embodying the provisions of the proposed act as the people so far had only passed the plebiscite. He said he thought that a combination of the English and American systems of civic government would be as satisfactory as it was possible to secure.

After a lengthy informal discussion the committee decided to hold another meeting as soon as more information on the subject was placed in its hands.

SURREY BOARD OF TRADE

Another Effort May Be Made to Raise \$1,000 For Publicity Work.

New Westminster, July 7.—At the annual meeting of the Surrey board of trade, held at Cloverdale, the old staff of officers were honored by re-election for another term. The only change made was that a second vice-president was added to the official staff, and S. Barrow was made second instead of first vice-president, and S. H. Shannon was made first vice-president. The officers were elected as follows: President, H. B. Rose; first vice-president, S. H. Shannon; second vice-president, S. Barrow; secretary, J. D. Carnross; treasurer, D. Haddon; chairman of committees, Membership, R. P. McKenzie; finance, W. E. Laking; agriculture, S. H. Shannon; roads and bridges, T. J. Sullivan; transportation, H. T. Thirift; navigation, J. T. Brown; arbitration, George Campbell; finance and publicity, E. M. Carnross; and S. H. Shannon; postage and telegraph, G. H. Wales.

The auditor's report for the past year showed cash on hand at the beginning of the year \$39.20, receipts for the year \$159.55; a total of \$248.45; disbursements, \$115.50; balance on hand \$132.95.

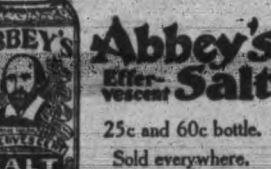

The chairman of immigration and publicity stated that some months ago they had undertaken to raise the sum of \$1,000 for publicity purposes, but that it had been laid down as a hard and fast rule that a thousand dollars must be secured or nothing. The committee had made a vigorous canvass and had secured pledges amounting to \$715, and had stuck there, hence the matter had been dropped. This was much regretted by the board and the opinion was expressed that it would be advisable to take the matter up again.

The following resolution was adopted by the meeting: "Whereas the carrying out of the Canadian Immigration Act entails a large amount of work in the municipality of Surrey and the municipality has not sufficient accommodation to meet the burden placed upon it by it resolved that we petition the Dominion government for the construction of a building and also to be available as a drill hall for C. M. company, 104th regiment of Canadian Militia; also resolved that a copy of this resolution be forwarded to J. D. Taylor, M. P., and Mr. J. W. Weart." The resolution carried unanimously.

INDIAN GUIDE TIED TO TOTEM POLE

Road Builders' Camp Destroyed by Indians in Skeena District

Capt. Alex. MacTavish reached the city from Kitwanga after undergoing some trying experiences in the interior, says the Prince Rupert Empire.

It seems Road Overseer Jennings, for the provincial government, has in hand the construction of a road and trail from Kitwanga, on the Skeena river, to the Naas. Capt. MacTavish was placed in charge of the work.

He had under him an Indian guide, another Indian and two white axemen. They pitched camp twenty miles from Kitwanga, and while away a few miles in advance constructing a passage over a stream to enable a safe passage for their horses, their camp, with all their supplies and equipment, were burned by the Indians.

The trouble arose with the Kitwanga Indians, and not with the Kitwanga Indians, as at first supposed. After securing fresh supplies Capt. MacTavish pushed on, and in going through the Kitwanga village the children, in the Indian language, yelled at them to "get out of that, as the whites were not wanted in the country." The Indian interpreter was instructed to explain that they were there to build roads, but it seemed to make no difference.

Onward the party pushed for a time until Capt. MacTavish found himself deserted, and in being obliged to retrace his steps he found the Indians had strangled one of the two Indians of his party to a totem pole and made him swear to cease leading in the white devils.

The upshot of the trouble is that Capt. MacTavish is now here winding up reports and awaiting instructions.

BOARDING HOUSE BURNED

New Westminster, July 7.—A Japanese boarding house situated in the Walsh Sash and Door factory's yard, and belonging to the Small & Bucklin Lumber Company, was destroyed by fire.

The inmates had a number of personal belongings scattered round up stairs, and for these a wild rush was made by the owners, and a large quantity was saved.

It is doubtful if the boarding house will be rebuilt, as it was located in a dangerous place for the lumber yards round, and perhaps a very serious fire would have resulted from this minor outbreak had the building taken ignition during the night-time.

The loss has not been estimated, but will not be heavy.

R. A. & I. SOCIETY MANAGER

New Westminster, July 7.—D. E. MacKenzie, city market clerk, has been appointed manager of the R. A. & I. Society in the place of W. H. Kearney, resigned. Mr. MacKenzie has been city market clerk for the past eight years.

There will be many regrets, however, that Mr. Kearney is severing his connections with the exhibition, but he has found that his duties have become too many, and he is unable to give the required attention to the society. He has held the position as manager for the past twelve years. The appointment of Mr. MacKenzie takes effect on September 1, but Mr. Kearney has offered any assistance he can render for this year's exhibition.

CITY OF VICTORIA

Municipal Notice

That the Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:

1. To grade, drain and pave with an asphaltic pavement Burleigh Street, from Craigflower road to Selkirk Avenue, and to construct permanent sidewalks of concrete on both sides of said street, with curbs, gutters and boulevards (including maintenance), also to construct lateral connections to sewers and surface drains;

SUN FIRE

The oldest Insurance Office in the world
FOUNDED A.D. 1710

HOME OFFICE: LONDON, ENGLAND

Canada Branch, 5th Building, Toronto, H. M. Blackburn, Manager
PEMBERTON & SON, Victoria Agents

Between the appearance of Miss Burke on June 29 and the week after next the Victoria theatre remains dark. The season will close in the week beginning July 17 with three attractions—Mrs. Fiske, Miss Barrymore and Ferris Hartman. It is a little early yet to speak of the coming season, but Manager Denison promises that it will be fully equal to the successful one now closing.

The voice of some of the charming young ladies of the stage, based on their charm and not at all on their histrionic talents, is remarkable. During the season week Albert Chevalier, whose art improves with the passing years, and John Drew, one of the best light comedians on the American stage, played to comparatively small houses. The same experience fell to Miss May Robson the week following—but Miss Burke, who is a great favorite in Victoria, was greeted by a capacity house.

Whatever may be in the stage about comparisons, they are unavoidable in criticism. On the artistic side there is no comparison between the impersonator of "Mrs. Dot" and the others named. She is charming and graceful, with her girlish figure, her winsome face, her mass of dark auburn hair, her dimples, captivating with her little affectations, her baby grimaces, her wicked little blinking of eyes, and puckering of mouth. She is always most charming when she is just Billie Burke and never the least little bit like what one would ask the character to have been—and that is always, with her, Miss Burke is clever and sensible enough to realize her limitations—knowledge few of us possess, after all—and so long as she sticks to the line of comedy roles she has been filling she will continue to draw houses which will be the despair of more able artists while she goes on amiably toying with the art of acting.

In Miss Burke's company the one figure which stood out in high relief was that of Fred Kerr, who played a worldly-wise clubman and man of the world. It was a finely conceived bit of comedy work, admirably handled and thoroughly well sustained. No small part of the honor for the success of the production is to be credited to Mr. Kerr's characterization of James Blenkinsop.

There is believed to be a good chance of Madame Nordica singing in Victoria some time next September. In the early days of her 1911-12 season, Frederic Shipman, her manager, is now on the coast and he is said to be well-pleased with the prospects for a successful tour of the diva in the Pacific Northwest. One of the members of her party the coming season will be Myron W. Whitney, the basso who made such a splendid impression when here a couple of weeks ago with Chevalier.

The flying Sarah never said that her recent tour was a farewell one, though her advance man did so for her. To the contrary on leaving New York for Paris the other day she declared her intention of returning in 1915 for the Panama Exposition. What would not many of us, who are only a fraction of the great French woman's age, give to have her youthful and buoyant spirit!

THE ADVANCE MAN

Empress Theatre.
FLORENCE MODENA.—She belongs her own company to the Empress, formerly the Grand, next week and is the headline act in Mrs. Gardner

Crane's very newest and most delightful comedy of to-day, "The Widow and His Wife." Vaudeville has had no better comedy tabloid than this, say the critics. Mrs. Crane has contributed to vaudeville many of its brightest and best comedy features, but in none of them has she given such full measure of fun as in this rattling comedy. Mrs. Crane is a well known among vaudevillians that anything she brings will be anticipated to be quite all right and containing all class. Add to this a company of well-balanced players and Empress patrons will be well pleased.

FLYING RUSSELLS.—An act to be featured here Monday is the acrobatic thriller of the flying Russells, who work for four minutes only at each

bright misses with gorgeous wardrobes and so much alike that they can scarce be told apart are the Hopkins sisters, who grace the Empress bill next week. They have been seen from time to time on the large Eastern circuits and make their first ocean-to-ocean tour under the B. and C. management.

HEIN SMITH.—Ballroom cannot surmise the presence of Ben Smith, who will be the dispenser of laughter on the coming Empress bill. Ben is best in black-face fun. His methods are unique and his matter original, with nothing of the slap-stick order in the turn. The bill throughout is reported as possessing five good features. Then there is the Grandioso.

Ferris Hartman in "The Toy Maker." Ferris Hartman and his superb company, who are to appear at the Victoria theatre on Monday, July 17, have just completed the most successful season in their career at the Grand Opera House in Los Angeles. Mr. Hartman has chosen as his vehicle that charming conception, full of wonderful conceits and such mystery as only children understand and every one believes in, "The Toy Maker." Which appeals alike to young and old.

No more delightful performance can be imagined than his portrayal of the quaint old toymaker of Nuremberg. He has been identified with the character since he first appeared on the stage and his wonderful fun-making resources have the widest scope there in. Scoldom or never has an entertainment, which is so happily a blend of music and comedy, been seen here. The music, which is in Audran's hand, is the comedy itself.

The company supporting Mr. Hartman will consist of over fifty people

Hunyadi Janos
Natural Laxative Water
Quickly Relieves:
Biliousness,
Sick Headache,

and
CONSTIPATION

have been especially manufactured for this tour. The scenic equipment is a special feature and has been built from original models. In its entirety the production will be the most complete and elaborate seen here in many years and, as popular prices are to prevail, there will be no doubt of a great success being scored.

Mrs. Fiske's Engagement. The advocate of the "open door" policy in the theatrical situation of the past two years has based his arguments in favor of his position for the most part upon the scarcity of attractions which he has been able to provide for his patrons. As a matter of fact, public expression upon the situation would doubtless take a somewhat different form in that the desire most generally expressed would in all likelihood be for an increase in the quality rather than the quantity of the attractions. Numerical insufficiency is of far less import than the ordinary manager seems to realize, and held much more securely, were a little of the effort and financial outlay now expended upon new theatres and productions enlisted in an effort to make more worthy of support those that already exist.

While the past few seasons have been far from as rosy as the theatrical sponsors of the country could wish, the attitude of the public has been conclusively shown by the generous patronage extended to the really leading applicants for the favor of the theatre. For instance, Mrs. Fiske, whose unassailable position as the foremost figure on the American stage is recognized in every hamlet of the country over, has known during the periods of general theatrical depression the most successful seasons in her history. There can be but one reason for this, and it is not far to seek. Mrs. Fiske, never satisfied to stand upon her own artistic footing alone, has provided during her career the most signally competent supporting organizations, the most beautiful and complete productions and the most perfectly rehearsed and stage-managed representations in the history of dramatic art in America.

The results have been such as only complete and conscientious endeavor would command. In "Mrs. Hamlyn-Leigh," which Mrs. Fiske produced with remarkable success at the Lyceum theatre in New York the first week in April, she disclosed the first week of a new playwright and made her first appearance in broad comedy since the early days of her stage career. This play was found to be most diverting and of a character not in the least associate with Mrs. Fiske's former accomplishments. Veritable as her art had proven to be in the widely differentiated roles that she had given to the stage in the past few years, here was a new and astonishing further proof of it. In the comedy sweep it was as much of a milestone in Mrs. Fiske's career as her "Tess" or her "Pecky Sharp," although, of course, of relatively less importance. It is in this, her most recent success, that Mrs. Fiske is to be seen at the Victoria theatre on Thursday, July 20.

Ethel Barrymore. Miss Ethel Barrymore comes here on Friday, July 21, in her latest success, the double bill, "Alice Sit-by-the-Fire" and "The Twelve Pound Look." She is supported by an excellent company and her coming to the Victoria theatre will be awaited with a great deal of pleasurable anticipation.

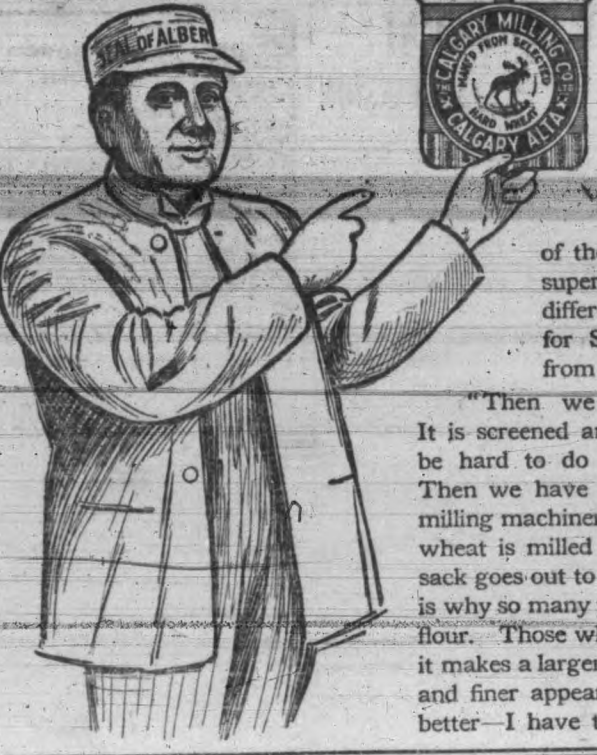

Chauncey Olcott Coming. "Macbeth" ("Pals of My Heart" is the title of the new play which Chauncey Olcott is soon to bring to the Victoria theatre. The play has been mounted by that master of stagecraft, Augustus Pictou, whose splendid productions in the past have made him famous, and who promises that Mr. Olcott's new play will have a setting that will be at once artistic and appropriate.

The chivalry of the English gentleman of the early nineteenth century is one of the strong elements of the play, and from it the author has drawn the inspiration for the most charming features of the story. There is a fascinating interest in the wild and happy life of that period in Ireland when the gentry were of the type made famous by Charles Lever and other novelists. A bouquet of new songs by J. F. Clarke is among the attractions of the play, which will be handsomely costumed and well played by a strong company.

STEEL TRUST'S METHODS

Troy, N. Y., July 8.—The common council has adopted a resolution calling upon the congressional committee now investigating the United States Steel Corporation to bring before the department of justice the matter of the forced sale of the Breaker Island plant of the steel corporation, opposite this city. Its absorption of the works and the throwing of them into the hands of a corporation and causing a loss of a million dollars or more annually to the merchants of this city. The resolution charges that the trust refuses to sell the plant or to use it for any purpose. The plant was conducted by the Troy Steel & Iron Works Company. It was purchased several years ago by the trust, which immediately closed the works.

John Makers, Read, Preserve kettles, in 10 sizes, 20c to \$2; wooden spoons, 10c; funnels, 10c; English hair brushes, 25c, 45c and 60c; scales, \$1, \$1.75 and \$2.50; at R. A. Brown & Co.'s, 1302 Douglas street.

The Miller says:—

"SEAL OF ALBERTA" is a better flour, because I follow it through every stage. First, I am mighty particular in the selection of the wheat and that counts a lot. In fact, it is one of the very biggest factors in making a superior quality of flour. There is a big difference in districts, you know, and for Seal of Alberta we select wheat from particular districts.

"Then we are careful about cleaning it. It is screened and scoured and washed. It would be hard to do any more than that, wouldn't it? Then we have searched the world for the finest milling machinery, and we have it here. When the wheat is milled it is tested and aged, and not a sack goes out to you until it is just right. And that is why so many people say Seal of Alberta is a better flour. Those who use it know it is better, because it makes a larger, lighter, whiter loaf of better texture and finer appearance. Those who use it know it is better—I have told you some of the reasons why."

NOBLE'S
SPLENDID VALUE
NOT only are Noble's the actual manufacturers of the garments they offer, but such is their reputation for honest methods and splendid values that the House of Noble has become the largest and most successful business of its kind. To order from Noble's is the surest and most economical of all ways to obtain absolute SATISFACTION. Noble's Goods are obtainable only from Manchester.

SEARCH FOR MISSING HUSBAND.

Boston, Mass., July 8.—Believing that her husband is being pursued by Indian mystics who desire the return of a marvellously hideous ring he possesses, Mrs. Swanton of Chester, Pa., has arrived here on the 45th day of her search, which has carried her to India and across the continent to Boston. Mr. Swanton received a strange silver ring bearing a hideous blue stone as a reward of service from an Indian doctor five years or more ago. He has since been continually besought by natives of India for the return of the ring. He went to India to learn the cause, and after writing that he was leaving Bombay for America, was lost to his wife.
Mrs. Swanton was told that her husband had been seen by a friend in Boston and is here to find him.

Royal Egyptian Palmist

This wonderful Egyptian does not tell
things to please a person, but reads the
hand—past, present and future. Tells
what step in life to take; tells when and
when you will marry; settles and explains
love affairs and family troubles. Why
not see the best? It costs no more. Satis-
faction guaranteed or no charge made.
LOCATED AT THE GORGE PARK.

The Evening Chit-Chat

By Ruth Cameron

"I always intend to do so much in
my summer vacations—reading and
studying and things like that I mean—
but when I look back at the end of
the summer it all seems to me as if
I hadn't done much of anything. I've
read a book here and a book there
and a lot of magazines and that's all."
A teacher said that to me the other
day. Every fall I hear that wall of
words to that effect from someone.
I also seem to remember that when I had long
vacations myself I often made a similar
moan.

Now, I wonder if the trouble isn't
that while we "plan" to do so much
we don't plan to do anything definite.
We have just read a resolution to
read all or all of the best of some
worth-while author—Stevenson or
Emerson or Lamb or Thackeray—or
George Eliot, for instance, or if you
prefer the moderns, all of Benson's or
Agnes Repplier's essays or Meredith's
novels or Barrie's books.

Perhaps you enjoy biography? Then
why not pick out half a dozen men
and women whom you are vaguely in-
terested in and promise yourself to
read their lives. Or, if you are a
Stevenson by Balfour, and I assure
you, it was as interesting as many
novels and much more inspiring.

If you have never read Les Miser-
ables you might attack that this sum-
mer.

Or, if your mind turns to sterner
tasks and you want to really study,
don't promise yourself to look into half
a dozen subjects, but select some one
and really do something with it.

Learn something about some science
that has hitherto been a closed book
to you. Get a simple text-book of
chemistry or astronomy or botany or
zoology and open a door into a new
world.

Or, promise yourself that you will
read a dozen good books on hypno-
tism and clairvoyance and the other
manifestations of the unknown world
into which science is trying to peek.

Or, if you are an average person,
perhaps it might not be amiss for you
to review one or two of those gram-
mar school studies that you have com-
pletely forgotten or never properly
learned. I say "an average person" be-
cause I don't know one person in ten
of the younger generation who has
more than a hazy idea of geography
and the other day I put the question to
a roomful of people, "What is an im-
proper fraction," and not one of them
knew for sure.

So an arithmetic, a grammar and
rhetoric, or a good old-fashioned
geography might not be a bad com-
panion for the summer vacation for
most of us.

One word more. If possible, promise
yourself to devote just so much time
every day to your task. It will not tire
you too much. That is, unless you are
a complete nervous wreck. Instead, it
will probably give a steadiness and a
value and character to the hours of
leisure which they would otherwise
lack.

In a picture, there can be no high
lights unless there are shadows.
It's just the same in life.

Ruth Cameron

guest of friends here.

Miss Violet Sweet has left on a visit
to friends and relatives in the east.

Mr. and Mrs. Fitzherbert Bullen have
been spending a few days at Shawnigan
Lake.

Miss Olvens and Miss Pettitrow left
for Vancouver yesterday afternoon on a
short visit.

Mrs. Stuart Robertson and family
went up to Shawnigan yesterday to
spend the summer at their cottage.

Mrs. James McDonald, 28 South
Turner street, and her three daughters
have gone south on a six weeks' vaca-
tion.

Hon. Thomas Taylor, provincial min-
ister of public works, leaves to-day for
Golden and the Kootenay district, on
an official tour.

Mrs. Bayens Reed and Miss Reed, ac-
companied by Mrs. Livingston McLeod,
returned yesterday from a visit to
Shawnigan.

Miss Jessie Henderson, pupil of Miss
Sill, passed with honors the recent
junior grade music examination of the
University of Toronto.

A social function which should fit-
tingly close the coronation festivities.

CHALLONER & MITCHELL COMPANY LIMITED

1017 Govt. St. Victoria, B. C.

is proposed by the Daughters of Em-
pire in a hall for the evening of Wed-
nesday, July 19. The proceeds of the
dance will be devoted to defraying the
expenses of the late celebration and to-
wards the general funds of the order.

Dr. Campbell, official physician for
the Canadian Northern Pacific con-
struction camps, has taken up his resi-
dence in this city.

R. F. Lawrence, supervising archi-
tect for the provincial government, has
been spending the past week on official
business in the lower Fraser valley.

At the First Presbyterian manse last
evening, Rev. Dr. Campbell solemnized
the marriage of Mr. Arthur Stephen
Victoria, and Miss Mary McIntosh Bar-
clay, only daughter of the late John
Barclay, Sauchen, Aberdeenshire, Scot-
land. After the honeymoon Mr. and
Mrs. Stephen will reside on Rose street.

The following is from the Noms Nugs-
get, describing the wedding of Mr.
George Marshall, son of Mrs. Marshall,
Menzie street, and Miss Irene Han-
ningan, Cape Nome: "Thirty invited
guests attended the wedding ceremony,
which was a brilliant one, at the new
home of the couple on First avenue.
Rev. Chas. D. Christian officiated. Mr.
T. R. Hanningan gave his daughter away."

Hugh Kennedy, Manager

BLOODSAL DEVONSHIRE'S POULTRY SALTS

Based on a formula of the late chief, the Chemistry Division, Agricultural Department, Transvaal, Mr. Luke Pither, the well known authority, writes: "I entertain no doubt that to insure abundant fertility in the eggs used for hatching—especially artificial hatching—your salts are of great value—if not indeed a necessity to all poultrymen in British Columbia."

BLOODSAL

Devonshire's Cattle, Sheep, Horse and Dog Salts. These salts contain no noxious drugs; are quite harmless and merely insure a sufficient supply of the mineral ash to the animal. Mr. H. T. Oldfield, Prospect Lake, writes: "I have found the Salts most beneficial in their effect upon my three foals. I shall never be without them in future."

RUPERT IN ON TIME TO-MORROW MORNING

G. T. P. Steamer Bringing
South Many Passengers—
May and Tees Leave

According to wireless reports received here this morning from the Grand Trunk Pacific steamer Prince Rupert, Capt. Barney Johnson, the vessel will dock here on time to-morrow morning from Stewart and Prince Rupert. She reached Vancouver to-day and after discharging some freight and permitting many of her passengers to disembark the steamer will proceed here.

The Rupert will sail north again on Monday morning, taking many passengers and a good cargo.

Two C. P. R. steamers left port last night, the Princess May, Capt. McLeod, for Skagway and other northern points, and the Tees, Capt. Gillam, for Holberg. Both vessels sailed with nearly all their passenger accommodation taken and were well laden with their cargoes of freight.

Among the passengers who left on the Princess May was Capt. W. H. Logan, of the London Salvage Company, who is returning to Plumper's bay to take charge of the salvage operations on the Pacific Coast steamship Spokane. Other passengers included: D. Cadzow, trader and fur dealer of Rampart House, Yukon; Harry Smith; Mrs. McFarlane, Miss McFarlane, B. Sharwell and wife; Capt. John Irving, for Alice Arm, where he is developing a rich silver property; Mrs. Kenny, Miss Davis, Mr. Payne, W. Foster, H. Marboeuf, Mrs. Henderson, Miss Stewart, M. Matsumura and wife, Mrs. St. Dennis, Mrs. E. Galt, Miss Scott, Mr. Peck, C. L. Kinghorn and Mr. Robinson.

Those who left on the Tees were: Mrs. Flinn and daughter for Alberni, S. H. Moss, H. Larsen and wife, B. Falness, H. W. Larson, A. Hull, J. Wood, C. M. Roberts, A. B. Ellis, Mr. Gibson, John Nott, Geo. Nott, Mrs. Boddy, Mrs. Deakin, and Miss Deakin, Byrne Hall, H. T. Burdick, Mrs. Taylor, Misses L. and E. Falness, W. C. Burns, Mrs. Donahue, Mr. Bruce, Mrs. (Capt.) Hunter, Miss H. Hstad, M. Christensen, R. H. Thomas, E. Platt and others.

TROUBLE AMONG SOCIALISTS.

Berkeley, Cal., July 8.—Trouble which flared up between local Socialists and J. Stitt Wilson, Socialist mayor, over the appointment of a city attorney unsatisfactory to Socialist Councilman John A. Wilson, ended last night. Party members at a called meeting returned to Councilman Wilson his resignation, deposited with them as evidence of good faith, and resolved not to demand that Mayor Wilson, who had said he would not give it, a resolution urging Socialist members of the city government to work harmoniously was adopted, but another declaring that no member of the party should apply at the city hall for a position, met immediate opposition, and was put over until the next meeting.

BUILDING IN STATES.

Chicago, July 8.—There is a marked increase in building operations throughout the country, totals of principal cities for June showing an increase of 11 per cent. Permits were taken out in fifty-five cities for the construction of 17,417 buildings, involving an expenditure of \$40,825,000, according to official reports received by the Construction News, compared with 16,811 buildings, involving a total investment of \$34,865,000 for the corresponding month last year, an increase of 11 per cent. There was an increase in thirty-four and decrease in twenty-one cities.

SHIPPING INTELLIGENCE

Tacoma, Wash.—Arrived: steamer Alameda, Alaska; Barque Acme, San Francisco. Sailed: British steamer Hornby Castle; British steamer Proteus, Seattle; steamer Arizonan, Honolulu.

THEIR MAJESTIES IN DUBLIN.

Dublin, July 8.—To-day their Majesties, the Prince of Wales and Princess Mary, entered the capital. They were received on shore by the Lord-Lieutenant of Ireland and were driven in state carriages to the castle, where apartments had been especially prepared. The occasion was made a holiday. The streets were crowded. Students from Trinity College gathered in force on the college green and gave their Majesties a royal and enthusiastic welcome. The threatened counter-demonstration did not materialize.

The majority of those who looked on did not so much as raise their hats at the approach of the Imperial ones, as soon as the procession had passed the crowd walked quietly away. The nationalists adopted a passively friendly attitude. They did not participate in the official reception, but did not interfere with it. They decorated their premises always, however, with the Irish flag. In the general decoration there was a discreet intermingling of orange and green.

OPPOSE RECIPROCITY.

A meeting of Conservatives of Esquimalt was held in the Masonic hall there last evening, the occasion being described as "the opening of the local Conservative campaign against reciprocity." R. H. Pooley presided as president of the Esquimalt Conservative Association, and prominent Conservatives present included G. H. Barnard, M. P.; H. D. Helmcken, K. C.; John Jardine, C. E. Pooley, K. C., and William Blakemore.

Reciprocity was opposed by speech and in picture, G. H. Barnard, and William Blakemore—supplying the former and reproductions of several eastern cartoons being thrown on the screen.

Y. M. C. A. CAMP OPENS.

R. C. Horne, the boys secretary of the Y. M. C. A., accompanied by fifteen intending campers, set out this morning for the junior camp site at Shoal harbor, Saanich. The tents will be put up by to-night. On Monday several others, who are detained in the city to-day by the examinations at the high school, are expected to join the camp.

A meeting of the executive of the Victoria Swimming Club met on Thursday night at R. Pomfret's office. Delegates were present from the J. B. A. A., Richmond and Y. M. C. A. clubs. Arrangements were made for taking part in the B. C. championship contests, half of which are to be held here, half in Vancouver. The Vancouver sports are arranged to take place on the 5th of August, the Victoria half will come off on the 12th.

For the hundred yard Island championship, George Jay is putting up a splendid silver cup. No other prizes have been fixed as yet. The officials for the local events are: Referee, Ian St. Clair; Judges, Geo. Jay, Beaumont Boggs and A. J. Brace. Clerk of the course, Walter Lorimer. The events so far decided upon are: Mile, quarter mile, two yards, relay (teams of four), lifesaving competition and a junior 200.

The question of affiliating with the Canadian Amateur Swimming Association, Montreal, was taken up, and it was decided to take no steps in the matter until something was done by the Vancouver club. The latter has not received the definite information which has been sent to the local organization, and is still carrying on correspondence with the eastern society. On Monday a general meeting of the club will be held at R. Pomfret's office to make final preparations for the contests. The club officials remind the public that, for financial support, they depend entirely on subscriptions, as entrance fees cannot be levied. The public is respectfully asked to accept this hint.

There is Health and Strength in every Cup of

**EPPS'S
COCOA**

Its fine invigorating qualities suit people of all ages. Rich in cocoa butter, and FREE FROM CHEMICALS. Epps's Cocoa is the favourite cocoa of a million homes. Children thrive on "EPPS'S."

It's Too Late to Grasp Opportunities After They Have Passed UNPRECEDENTED SALE OF 50c. SHARES

We wonder if the reader of this paper realizes the time is rapidly passing, giving you an opportunity for investment in the best coal mining proposition to-day on the Pacific Coast.

The development of The British Pacific Coal Company's vast coal area on Graham Island gives promise of becoming the greatest coal mine known in the northwest.

On Tuesday morning, June 27th, Trustee T. R. Morrow, placed upon the market a limited number of shares in The British Pacific Coal Company at 50c a share.

The stock is held by T. R. Morrow, Trustee, as fully paid up and non-assessable.

The splendid reception accorded this stock means an early closing out of this issue.

Address your application and make your cheques payable to the order of T. R. Morrow, trustee, whose office is situated at 604 Broughton Street, Victoria, B. C.

SOLVING REFORM PROBLEM IN CHINA

New Constitutional Govern- ment to Be Remodelled After English Pattern

When the national assembly of China meets again in October, with the promise of a complete parliament to be called in three years, a big struggle is looked for in respect to the powers of the cabinet.

The commission that studied the constitutional systems of the west has recommended that the German and Japanese model should be adopted—that is, the Chinese ruler should have the right of appointment and removal of ministers, who should be directly responsible to the throne. But the native papers are agitating for the English model to be adopted, making parliament supreme in the selection of and control over the cabinet. Present indications are that the national assembly will back up this idea on the ground that without that control over the ministry parliament will be liable to be crippled.

There is no doubt, at any rate, that the administration of China is slowly but surely emerging from chaos. Up to a month ago the duties of ministers were extremely vague, their authority was limited, and their interest rambling over the whole field in a way that enabled them to evade responsibility if anything went wrong. That was what led to so much criticism in the first session of the national assembly.

A start was made with the new order of things when the recent opium agreement with England was approved. That document was signed by the prime minister, Prince Ching, and his associates, Su Tung and Hsi Shih Chang, as well as by Tson Chia-hsi, acting as minister of foreign affairs, in the absence of Lang Tung Yen in America.

Hereafter, according to the constitution concerning the new cabinet, laws, imperial decrees, and special edicts having reference to state affairs shall be countersigned by the minister of state if they concern all departments in general and by the prime minister concerned if they affect one department or several departments only.

That is a big advance for China, the hardest country in the world in which to fix on the real culprit. In addition to the new cabinet there is to be a privy council, having "important relation with the cabinet," but just what that implies is not yet clear. In addition to the prime minister and his two associate ministers there will be ten members of the cabinet—minister of finance, foreign minister, education, civil affairs, justice, posts and communications, agriculture, industry and commerce, dependencies, army and navy.

On specified days or on urgent business they are all to have access to the throne, but the premier and his two associate premiers are to be admitted daily. This cabinet will control everything except the army and navy, whose ministers will report to the throne direct, before the cabinet is consulted.

Europeans in China mostly hesitate to prophesy as to the outcome, just as they decline to express optimistic optimism for the future of the opium question. For there is plenty of ground for fear that the increased growth of opium in Persia has caused in China, with countless smugglers looking for a fat industry to follow.

THE MAKING OF MEN.
J. G. Shedd, the manager of Marshall Fields, says that if he wished to evolve a man of the highest type, a man of courage, resource, invention, integrity and character he would pick a healthy boy of fifteen who had to earn his own living. If this boy had a widowed mother and younger brothers and sisters dependent on him, it would be no disadvantage.

This boy would then be placed on the lowest rung of the ladder he was to climb, and all we would have to do would be to watch Canada grow.

Alfred Henry Lewis says that so far as he knows, all good buildings, even the Parthenon that crowns the Acropolis at Athens, were built from the ground up, and not from the clouds down.

Humans also grow from the ground up. And the man whose growth begins at a goodly distance from the soil never grows very high nor very strong.

Now, what is the condensed moral of Mr. Shedd's remark? I'll tell you. It is that the earning of his living is a necessary part in the education of a boy who has reached his fifteenth or sixteenth year. It also means that a boy is educated or evolved by giving him responsibilities.

Now I am inclined to think that not a college president in America will take exception to Mr. Shedd's proposition, provided you do not demand that the college president aforesaid shall arise and confess the truth before his student body and his faculty. Colleges are business concerns, and due care is always taken not to offend the Managing Mammas—Wm. Marlon Reedy.

RECIPROCITY IN ZINC.
At the last meeting of the Associated Boards of Trade an interesting memorial, prepared by J. L. Bellack, on the securing of reciprocity on the zinc problem, was endorsed, and had the approval of the representative mining men of the province interested in zinc mining. From this memorandum it appears that the reason given for the United States in the first place was to protect the zinc industry of the United States against Mexican zinc, which had become an extensive import, and was produced at a cost for Mexican labor of 37½ to 40 cents a day against 40 to 50 cents for the American miner.

FASCINATION OF CONQUEST OF AIR

Interesting items as to Cost of Manufacture, Maintenance, and Utility of Machines

The extraordinary fascination which the conquest of the air exercises over the ordinary mind is shown by the interest with which every development of the new science is followed, says the Montreal Herald.

The word science is used advisedly as comprehending the whole fields of aeronautics, but the average man would probably be willing to admit that it is the art of aeroplaning that arouses his keenest interest and the reason of that is the startling swiftness of the achievements made after man realized the character and quality of the motion needed to enable him to soar through aerial space with the rapidity of a swallow.

The path through the air has in a short been strewn with wreckage and amongst it must of course be included the fall of a French ministry which is directly traceable to the killing of M. Bertheux, the French minister of war and the serious injury of the prime minister, M. Monis, on the day of the Paris-Madrid race. It was M. Bertheux's successor at the war office, general Goltz, who was defeated in the chamber and who thus brought about the break up of the ministry.

Neither this nor the succession of disasters, nor the frenzied exploitation of horrors that have occurred are likely to have a discouraging effect on aerial enterprise. The dangerous side of aeroplaning has of course been greatly magnified and little account has been taken of the part that such ordinary human frailties as recklessness and carelessness has played in the disasters.

Thus it happens that many otherwise well informed persons have come to view aeronautical progress as the development of a desperate and dangerous folly. How far do facts support this idea? In all the thousands upon thousands of miles that have been flown since men first got into the air with power-driven aeroplanes, the prototype of nature's mechanism, the bird, and the other type of flying machine that has really flown, there have been, according to the most reliable statistics obtainable, no more than fifty-five fatal accidents with such machines.

This is an insignificant mortality list compared with what the railways claimed when they had been in existence for a similar length of time. Possibly as thought of an individual tumbling from the skies grips harder on the popular imagination than the slaughter of a few scores in a factory fire, or a million deaths from tuberculosis. Yet it is no worse than being killed as many are by an automobile.

Something like a million miles is the aggregate of all aeroplanes flying to date, while it is conservatively estimated that present mileage totals about 55,000 a week for the whole world. Not less than 8,000 persons have made passenger flights that are matters of definite record, and fully thirty million dollars is invested in the industry in Europe alone.

As nearly as can be calculated, the deaths figure out at about one to each 60,000 miles of flight, which statistically and therefore unprejudicially considered, proves human flight to be only about one-sixtieth as dangerous as it was two years ago.

No doubt a great deal more would be accomplished, but for the fact that aeroplaning is rather an expensive pastime.

Mr. Clifford B. Harmon, dean of the American amateur aviators, and chief of the staff of the United States aeronautical reserve, has recently gone into this question very thoroughly and his investigation will show those who aspire to fame in the empyrean blue just what they may expect. An aeroplane can be as expensive a toy as a steam yacht. Although this question comes up almost daily, it is difficult to give more than an approximate answer to it; for the aeroplanes have not yet been commercialized to the extent of the automobile.

This article does not profess to settle the much-mooted discussion as to whether a monoplane or a biplane or a multiplane is the best kind of aircraft. Many incline to the biplane, believing that it is easier to operate and less treacherous. And yet no American monoplane has made any marked success.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much result and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound. For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

There is one being manufactured in the United States, the Walden-Dyott; but the Bleriot people have an American agency.

Abroad, the best-known types—perhaps, are the Bleriot monoplane and the Farman biplane. These may be bought for the price of twenty-five hundred and five thousand dollars. The duty on aeroplanes is very high, and in addition one must calculate, if he desires a foreign machine, on spending about five hundred dollars to bring it over the ocean. This amount takes account of the services of a speculator to put the imported machine, some pretty close to costing not far from five thousand dollars for the twenty-five hundred dollar machine, and eight thousand for the one listed at five thousand dollars.

It is possible that manufacturers put too high a price on aeroplanes; but during the experimental stage automobiles were much more expensive than they are now, when they have become so universally commercialized. Examine an aeroplane closely and you will see that it is made up of something more than a wooden frame covered over with cloth and held together with wires. To fly, an aeroplane must be a perfectly constructed craft, combining in itself the best materials and the finest workmanship in every detail.

An industrial exhibit recently held in New York city had for sale a number of aeroplanes ranging in price from two thousand to seven thousand dollars. The attendants in the booths explained that some of these had already successfully flown. Although, on the market only one year, there are in this country to-day ten thousand machines in actual existence or in course of construction.

There are schools in England, Germany and France where you can be taught to fly. At Grahame-White's school, considered one of the best, you may learn to operate a monoplane or a biplane for something over five hundred dollars. To master both types costs about seven hundred and fifty. Of course a nominal deposit is required to cover any possible damage to the machines.

The Wright brothers have two schools, one at Dayton, Ohio, and the other, used mostly during the winter, at Augusta, Georgia. The charge is \$25 a lesson, and the instruction is given by one of the Wright fliers. At the Curtiss school, just opened at San Diego, California, \$500 is charged. Mr. Curtiss gives the instruction himself, and this is credited toward the purchase price of an aeroplane should the student decide to purchase. This does not exhaust the list.

Then there are quite a number of "birdmen" about the larger cities who will teach you to fly for sums ranging from \$100 to \$500. Most of these, however, require a bond of \$2,000 for protection against accidents to the aeroplane. Many aviators may be found who will take you taxi-cabbing in the sky for \$100 a trip.

If one desires to build his own aeroplane he can do so. One can secure the manufactured parts or make them in his own factory, if you happen to have one. One supply house advertises, "Everything from a turnbuckle to the machine itself." Complete sets of working drawings of all parts for a Bleriot XI (Cross-Channel type) are to be had for \$150 up to \$10.

Here are the prices of some of the parts: Propeller from \$40 to \$125; motor from \$150 to \$4,500; gas tank from \$10 to \$20; radiator from \$40 to \$75; rubber wheels from \$7 to \$15 each; spruce timber for repairs, \$75 per 1,000 feet; 400 feet special grade of piano wire for connections at 30c per foot; patent slip cloth for covering, \$100; \$500 to \$1,500 for a "bungalow" which serves for the aeroplane the same purpose as a stable does for a horse, and \$100 a week for working crew for repairs. "It will be seen that aeroplaning has possibilities for becoming a fairly expensive pastime."

Exports of iron and steel from the United States in the fiscal year about to end will probably be \$235,000,000 in value, against \$184,000,000 in the former high record year, 1909.

Baby Nearly Died with Itching Rash

Mrs. M. C. Matland, of Jasper, Ont., tells in the following letter of her child's remarkable cure by the Cuticura Remedies:

"When my boy was about three months old his head broke out with a rash which was very itchy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs, and then to his entire body. He got so bad that he came near dying. The rash would not stop so that he would scratch till the blood ran and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to prevent him tearing his skin. He was almost a skeleton and his little hands were like claws."

"He was bad about eight months when we tried Cuticura Remedies. I had not had him down in his cradle in the day-time for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was so soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to cure him. I think our boy would have died but for the Cuticura Remedies as I shall always remain a firm friend of them. He was cured more than I could tell and there has been no return of the trouble."

(Signed) Mrs. M. C. Matland, Jasper, Ont.

No more convincing proof of the efficacy and economy of the Cuticura Remedies could be given. As in this instance a single cake of Cuticura Soap and box of Cuticura Ointment are often sufficient. Sold throughout the world. Potter Drug & Chem. Corp., Sole Proprietors, Boston, U. S. A. Send for free Cuticura Booklet on skin and scalp diseases.

PRIVILEGES OF A ROMAN CARDINAL

Strange Relations of Church and State in Italy Illustrated

The strange and difficult relation in which the Church and State stand to each other in Italy was illustrated by one of the incidents which arose during the recent clerical libel suit. Two of the cardinals of Curia, or those habitually resident in Rome, Cardinals Respighi and Martinelli, have been cited as witnesses, and both of them replied saying that they reserve themselves of the prerogative of the great officials of State in Italy and have their testimony taken in their own houses.

Counsel for the defence at once objected, saying that in 1850 all ecclesiastical privileges had been abolished, and that churchmen of whatever rank were to be treated exactly as ordinary citizens, and denied that Cardinals had the right to call themselves officials of the Italian state. He added that Cardinals were not even among the number of those distinguished citizens from whose ranks senators of the kingdom may be chosen, and though in documents preparing the great Law of Guarantees, which regulates the relations between the Church and State in Italy, the Cardinals were spoken of as equivalent to princes, in the document itself there were no words attributing this title to them, nor, indeed, had the Law of Guarantees ever been accepted by the Papacy.

Even the famous decree of 1861, which gave the Cardinals precedence over the Knights of the Order of the Annunziata did not mention Cardinals among the great officials of State, and in any case this decree simply regulated ceremonial, and had nothing to do with judicial procedure.

The defendant Verdesi's advocate reminded the court that if the Cardinals were treated as great officials of State in this case, it deprived the accused of two legal guarantees of hearing what was said about him, and of contradicting the evidence if he wished, which he could not do, not being present at the examination.

Counsel for the Crown, in reply, recalled that in 1870 General Cadorna, who commanded the soldiers who took Rome, ordered the troops to render the same honors to Cardinals as though they were princes of the blood, and cited several precedents for Cardinals having been considered great officials of the State by the tribunals of Rome. After other advocates had argued on both sides, the court retired for nearly two hours in order to consider the question, and on its return the president of the court read a long judgment, the gist of which was that it was not necessary to be a public official in order to enjoy the prerogatives of that position, and that he considered that the decree of 1861 might be taken as an interpretation of the law, and that, therefore, he ordered that the evidence of Cardinals Respighi and Martinelli should be heard in their own homes without the presence of the other parties to the suit.

This not very important question is interesting as showing how anomalous and difficult is the position between the two authorities which have their seat in the Eternal City; it is also an example of the desire which is almost always shown by the Italian government to interpret the law in such a way as to accommodate matters and to avoid displeasing members of the Vatican.—London Standard.

TROPICAL FRUIT TRADE

Cold Storage Methods Increase Shipments From South America.

Extraordinary demand for tropical fruits may be one reason why South America is now claiming attention as a probable factor in this class of exports. Heretofore, Central America and the West Indies have furnished the principal shipments of bananas and citrus fruits for northern consumption. But American importers are now watching closely the experiment of bringing fruit in cold storage from South America to New York. Arrival of the Lamport & Holt steamer "Yolande" with grapes from Argentina and oranges from Brazil seems to open up possibilities that plantation owners and importers are likely to take advantage of. South of Colombia fruit growing has not yet reached large dimensions, although shipments of bananas are made from Colombia and Dutch Guiana to New York. But it may be taken for granted that when once it is established, that there is no deterioration in cargoes in transit, efforts will be made to develop the trade which to other tropical sections has proved so remunerative.

Shipping fruit in cold storage is not new. Between Jamaica and England there has been regular steamer connection whereby fruits have been put into London in the best state of preservation. There is every reason to believe, therefore, that it will be more a question to what extent South American fruit will compare with the product of the West Indies and whether the public north of Panama and whether the southern field with the same degree of energy as was brought to bear in other quarters yielding rich returns. That it is necessary to extend operations continually seems conclusive when it is considered that leading planters aver that in order to get best results the soil should be given periodic rests. It appears, however, that Colombia is especially favored, since the river lands have regular floodings that leave rich alluvial deposits behind. If Argentina and Brazil are equally fortunate, there can be little doubt that fruit raising may be expected on a large scale in these countries.

There have been a number of changes in the method of handling tropical fruits. Bananas, for instance, are now sold to the importer by the hundredweight. There is still classification by large and small bunches, but the weighing arrangements appear to satisfy wholesalers and retailers. As is evident that the interests responsible for Central American and West Indian fruit development are at work in South America, where is little doubt that export from south of Panama will be conducted in the same manner that has proved so profitable to other territories where American capital has found investment.

Weller Bros. have received a large shipment of office furniture, the very latest in design and highest in quality. Business men will appreciate these.

J. Nooney, Solicitor, Mullingar, Ireland, he will hear something to his advantage.

THE MALAHAT LIME CO., LTD.

TAKE NOTICE that a meeting of the creditors of the above Company will be held at the office of Messrs. Wootton & Goward, Bank of Montreal Chambers, Victoria, B. C., on Monday, the 19th of July, 1911, at 2 p. m.

Dated at Victoria, B. C., this 24th day of June, 1911.

JOHN HERBERT ELFORD,

Recent Invention Popularizes Once Ex-
pensive Reproduction.

Hitherto the expense of a cinematograph camera has prevented any but professionals from taking up motion photography as a hobby. However, at a private demonstration which was given recently by the "Tak-Kos-Kope" Company, Limited, at 64 New Bond street, London, a remarkable camera, which is capable of taking either ordinary or motion pictures, was shown. The "Tak-Kos-Kope" supplies a long-felt want, and should greatly assist in bringing the fascinating science of cinematography within the reach of all. In addition to ordinary snapshots, the camera will take either 100 feet or 350 feet of film of standard size. The instrument is divided into two parts, viz., the camera for taking cinematograph films or pictures on the ordinary photographic plate or film, for which a place is provided, and also the lantern and standard for projecting the cinematograph films taken by the camera. A printing device and developing tray are also provided, thus enabling the photographer to take his own films, develop and print them, and show them in his own home. The "Tak-Kos-Kope" should prove of value as an educational factor, and should be of great use in the home.

The film can be projected on the drawing-room screen, as projection lamps may easily be attached to ordinary illumination fittings. The projector may also be used for an ordinary lantern entertainment. These are but a few of the advantages of this remarkable little camera. The price of the outfit is extremely moderate when taking into consideration the manifold uses to which the apparatus may be put.

Olympic, largest steamer' in the world, sailing from New York, July 24. Good space available in all classes. Minimum rates. First class, \$127.50; second, \$62.50; third, \$35. Full particulars, C. A. Solly, agent, 1219 Douglas street, Victoria.

FRANK IN DANGER
OF LANDSLIDE

Prof. Brock Reports That Turtle Mountain is in Dangerous Condition

That the town of Frank, Alta., is in grave danger of a landslide, with heavy loss of life, owing to mining operations, which have weakened the north-west shoulder of Turtle mountain, is the gist of a report by Prof. R. W. Brock, director of the geological survey.

Turtle mountain, whose northwest shoulder overlooks Frank, has large coal seams at its base. Cracks have already appeared in the huge mass of rock, which are ascribed to the mining operations, and it is considered that any further work on the coal seams may lead to awful results. Frank has already had one landslide, the catastrophe of 1903, and now Turtle mountain is said to be hanging over it like a sword of Damocles. The mountain has been under inspection since 1903 by the geological survey. Professor Brock reports it this year to be in a much more dangerous condition than a year ago.

Last year two small cracks were detected. This summer they are quite marked in development. Moreover, the surface is covered with shingles, so that a fissure might not be evident until it had attained considerable size. The report ends with an urgent warning that any further undermining may result in disaster without the slightest warning.

INFLUX OF SETTLERS
FROM NEBRASKA

Immigrants Have Brought Over \$21,000,000 Into Canada in Ten Years

Fifteen years ago the Canadian Government opened a land office in Omaha, Neb., and actually paid the expenses of the few "pioneers" whom it could induce to cross over into the great Canadian Northwest. Last year, in 1910, nearly 3,000 people, with a wealth of almost \$3,000,000, took out certificates from the same office in Omaha, and went over into Canada, paying their own expenses.

The records of the Canadian office in Omaha are the complete of all offices of that kind in the United States, and these records contain, in miniature, the history of the movement from the United States to Canada. No other office has such complete records of this kind, and to those interested they tell a complete and interesting story. W. V. Bennett opened the Canadian office in Omaha in 1896, and he has remained in charge ever since. He started in to keep accurate records of the business transacted, and by using the same system through his term, he can readily compare the present with the early days of the movement.

Officially, more than \$71,000,000 in cash and property have passed through the Omaha office into Canada since 1896. As a fact, there have been a good many more millions of dollars which have followed the other amount, but of which this office has no record, the holders having "gone in" without applying to the Omaha office for certificates of registration.

Paid the First Emigrant.
Early in 1898 the Canadian office in Omaha was opened and Bennett started in to get business. Three months went by and he had not been able to induce a single man to cross the border. "What do we want to go to that frozen country for?" was asked, when he tried to interest people in Canada.

Finally, in desperation, he actually paid the expenses of one man in order that his report would not show a blank. This pioneer of all emigrants from the central west to Canada was Frank Crowell of South Omaha, and he went to Edmonton, Alberta. Crowell was a miner and prospector. With Crowell as an entering wedge, Bennett succeeded in getting 15 others to go to Canada during the year 1898. And every man of the lot was given a railroad pass as soon as he reached the Canadian border. And the expenses of every man, in looking up Canadian land, were paid by Bennett.

The following year, 1899, Bennett managed to induce 90 people to leave this part of the country and move to Canada. It was not until the fifth year of the movement that Mr. Bennett commenced keeping track of the amount of cash or goods each settler took in with him. But in the last ten years this record shows that more than \$21,000,000 was taken into Canada by settlers from this immediate country.

The official record is as follows:

Year	Number	Cash	Goods
1896	16
1897	91
1898	231
1899	563
1900	869
1901	1,330
1902	2,297	3,352,000
1903	3,969	4,120,000
1904	2,385	2,634,000
1905	2,288	2,320,000
1906	2,679	2,167,000
1907	1,874	1,041,000
1908	2,009	1,096,000
1909	2,123	1,007,000
1910	2,737	2,336,000
		\$4,760	\$21,262,000

The Only Way
To Save Coal

Is to keep your fire always steady and even. It's the fire that burns red hot one minute and out the next that makes big coal bills.

This is the fire that spoils

your cooking too—and fills the day with petty annoyances.

The Oxford Economizer

found only in Gurney-Oxford Stoves and Ranges
—guarantees you a steady, even fire
—guarantees you a 20% saving in fuel
—guarantees you better cooking
—guarantees you a cooler, better ventilated kitchen.

The Chancellor

Our latest Gurney-Oxford Model embodies not only all the latest ideas found in any high grade stove but many—including the "Oxford Economizer"—found in no other stove. The Chancellor is the best investment you can put into your kitchen. Let us prove this to you the very next time you come this way.
